LEGISLATIVE DEPARTMENT.

NOTIFICATION.

No. 845L., dated Calcutta, the 18th February, 1926.—The following Report of the Select Committee appointed to consider certain amendments to the Bengal Legislative Council Standing Orders, 1920, is hereby published for general information:—

REPORT OF THE SELECT COMMITTEE APPOINTED TO CONSIDER THE AMENDMENTS TO THE BENGAL LEGISLATIVE COUNCIL STANDING ORDERS, 1920, SUGGESTED BY SHAH SYED EMDADUL HUQ, M. L. C.

We, the undersigned members of the Select Committee appointed to consider the amendments to the Standing Orders suggested by Shah Syed Emdadul Huq, M.L.C., have considered the same, and our recommendations in respect thereto are as follows:—

Amendment of Standing Order 6 (*1*).

We consider that it should also be provided in Standing Order 6 (*1*) that a member should, as in the case of a first priority resolution, intimate his desire to proceed with a question which has not been answered, as it may very well happen that a question not answered in one session may lose all its force by the time the next session comes round and a member may not wish to put it.

We, therefore, suggest that the amendment of Standing Order 6 (1) should run as follows:—

(i) line 3, for the words "any resolution" the following shall be substituted, namely:—

"a question which has not been answered or a resolution"

(ii) lines 5 and 6, before the words "such resolution" the following shall be inserted, namely:—

"Such question shall, if the member intimates in writing not less than fifteen days before the commencement of the next session his desire to proceed with the question, be carried over for reply to the list of questions for the next session and"

Amendment of Standing Order 12, last proviso.

The Committee unanimously accepted the proposed amendment of Standing Order 12, last proviso, namely:—

In Standing Order 12, last proviso, for the word "postponed" the words "carried over" shall be substituted.

(b) if a single appointed arbitrator neglects or refuses to act, or is incapable of acting, or dies, or is removed, and the submission does not show that it was intended that the vacancy should not be supplied, and the parties do not supply the vacancy;

(c) where the parties or two arbitrators are at liberty to appoint an umpire or third arbitrator and do not appoint him;

Power for parties in certain cases to supply vacancy.

7. Where a submission provides that the reference shall be to two arbitrators, one to be appointed by each party, then, unless the submission expresses a contrary intention,— S. 9, I. A. A.

(a) if either of the appointed arbitrators refuses to act, or is incapable of acting, or dies, the party who appointed him may appoint a new arbitrator in his place;

(*b*) if, on such a reference, one party fails to appoint an arbitrator, either originally or by way of substitution as aforesaid, for seven clear days after the other party, having appointed his arbitrator, has served the party making default with notice to make the appointment, the party who has appointed an arbitrator may appoint that arbitrator to act as sole arbitrator in the reference, and his award shall be binding on both parties as if he had been appointed by consent :

(*c*) If an arbitrator, appointed either by one of the parties, by the arbitrators, or by the Court refuses to act, or is incapable of acting, or dies, a new arbitrator may be appointed in his place by the party, arbitrators, or Court, as the case may be.

ENACTMENTS REPEALED.

Year.	No.	Short title.	Extent of repeal.
1899	IX	The Indian Arbitration Act, 1899.	So much as has not been repealed.
1877	I	The Specific Relief Act, 1877.	The last 37 words.
1908	V	The Code of Civil Procedure, 1908.	Section 89, clauses (*a*) to (*f*) of section 104 and the Second Schedule.

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to amend and consolidate the law relating to Arbitration in British India. The present Arbitration Act came into force on 1st July 1899. Most of its provisions were borrowed from the English Arbitration Act, 1889 (52 and 53 Vict., c. 49). The English Arbitration Act is, however, a consolidated Act, containing provisions both as to arbitration through and outside the Court, while the Indian Arbitration Act confines itself to submissions and awards made without the intervention of Court, and governing only certain Presidency towns and other special local areas. In the last Civil Procedure Code of 1908 arbitration provisions were removed from the main body where they existed before, and made an appenage of the Code in Schedule II. Then, Sir Lawrence Jenkins, a prominent member of the Select Committee who were engaged on redrafting the clauses of the Bill, observed as follows:—

> "We have determined, therefore, to leave arbitration clauses much as they are in the present Code, but have placed them in a separate Schedule in the hope that at no distant date they may be transferred to a comprehensive Arbitration Act".

After the lapse of sixteen years, it is high time that attempt was made to realise that hope. During the interval, conflicting decisions of High Courts have revealed defects which require to be remedied. Sir Norman McLeod C. J. at page 265 of I. L. R. 45 Bombay remarked:—

> "The provisions of the Code relating to arbitration were transferred with certain modifications to a separate Schedule in the hope that at no distant date they might be transferred into a comprehensive Arbitration Act. Unfortunately that hope has not been realised with the result that the law relating to arbitration still remains in a most undesirable condition".

The need for the present piece of legislation has been accentuated now that the dilatoriness of justice in Civil Courts has become so intolerable as to necessitate the appointment of the Civil Justice Committee. All the more imperative, therefore, it becomes that the arbitration law which provides the speediest and cheapest means of administering justice should be placed on a sound basis, purged of all the errors and drawbacks, which a quarter of a century working has brought to light, and that its scattered provisions be brought together into a consolidated whole. Difficulties felt owing to the absence of provisions relating to appeals, and in construing sections 13 to 15 of the Act have been overcome.

The appointed Chambers of Commerce assembled in Bombay in December last represented to Government the necessity of examining the law of arbitration and remedying its defects.

NOTES ON CLAUSES.

PART I.

Cl. 1. Definitions. In view of the extension of the scope of the present Act, the definition of Court has been altered.

Cl. 6(*b*) The word 'single' has been added in that sub-clause to give effect to the ruling in Gopalji Kuverji *v.* Murarji Jeram I. L. R. 43 Bombay 809.

Cl. 8. Has been added on the lines of the new section 16 of the English Administration Act to supply an obvious deficiency.

Cl. 10. Has been newly added. The want of this clause has been frequently felt when parties to submission require the attendance of witnesses whom they cannot procure without process of Court.

Cl. 12. At present much confusion has arisen in construing sections 13 to 15 of the Act. Some Courts have held that as soon as an award is filed by the arbitrators it becomes enforceable as a decree though an application to set it aside may be pending. This creates an anomaly, is opposed to the practice obtaining in England, entails great hardship on the defendants and is hardly consonant with justice. It has therefore been thought necessary to enact a provision similar to the one contained in the English Arbitration Act.

Cl. 13. It is but necessary to enact such a provision distinctly as its absence is likely to lead to unnecessary litigation.

Cl. 16(*2*). Is enacted to meet the difficulty created by the decisions in 16 Sind Law Reporter page 174 F. B. and I. L. R. 45 Bombay page 245.

Cl. 18. At present considerable difficulty is felt in the absence of a provision whereby the Court can compel the arbitrator to state a point of law for the opinion of the Court. And hence this provision.

PART II.

Cl. 10. It is desirable to extend arbitration provisions to proceedings of a civil nature other than suits.

Cl. 25. It is necessary to make a clear provision that the Court can extend time even after the award has been made.

PART III.

Cl. 33. At present the Arbitration Act applies to Presidency towns and to Allahabad, Rangoon and Karachi. In Presidency towns and Rangoon appeals are provided in the Charter, so in Allahabad by rules. In Karachi it has been held that no appeal lies. In the course of proceedings under the Indian Arbitration Act many important and complicated questions arise. It is therefore necessary to provide at least one appeal from the Court's orders. Moreover as the scope of the Act has now been extended to the whole of British India the provision as to appeals is necessary. Section 104 did provide appeals against orders under the Second Schedule which applied to the whole of British India. Some of the clauses of that section have been omitted as being out of place in the amended provisions of this Bill.

7. The Local Government may make rules under this Act for the punishment of offenders and for the better preservation of the fish fry.

STATEMENT OF OBJECTS AND REASONS.

THIS Bill has been introduced to put a stop to the destruction of fish fry in Bengal. Fishes are daily becoming scarce and have now-a-days become almost a luxury, and not a necessity, as they were in former days The population of the province is gradually increasing and the supply of fish has failed to keep pace with the rapid growth of the population. In this province fish is one of the chief articles of consumption, nay, it is an indispensable article of food to the Bengalees. *Beels* and navigable rivers are being gradually silted up, while new tanks are not being excavated in large numbers as before. There being no law for the preservation of fish fry, they are being destroyed wantonly. These fry, if they can be preserved, will be able to increase the supply of fish gradually, and remove one of the chief wants of the Bengalees. An Act on these lines has become an urgent necessity, and hence it is introduced.

Section 1—Gives the designation and the scope of the Act.

Section 2, clause 2.—Fish fry come into being from the month of *Baisakh* every year and are not developed till the month of *Asharh*, as they flock together till that time, and hence, for the protection of these undeveloped fry, this definition has been inserted.

Section 3.—Fish fry are caught or destroyed and are sometimes used as articles of human consumption. even in this undeveloped state. To prevent this, this section has been inserted.

Section 4.—To prevent the fish fry from being sold as an article of consumption or for trade purposes, this section has been introduced.

But selling these fish fry for fish cultivation in other waters has been made an exception.

Section 5.—Unless some provision for punishment is made in this Act, the practice of destroying fry will not be put a stop to; to put a stop to this practice effectively provision has been made for a light punishment, *i.e.*, to levy a fine which may not exceed Rs. 10 or in default 3 days' simple imprisonment on those committing any act towards destroying the fish fry or reducing their number.

Section 6.—Provision has been made in this section for means of bringing the offenders to book promptly.

Section 7.—In this section, provision is made for better administration and justice.

(*a*) the names of the parties to the suit,

(*b*) the name of the party for whom he appears, and

(*c*) the name of the person by whom he is authorised to appear :

Provided that nothing in this sub-rule shall apply to any pleader engaged to plead on behalf of any party by any other pleader who has been duly appointed to act in Court on behalf of such party."

Repeals.

3. Section 10 and Form C in Schedule II of the Bombay Pleaders Act, 1920, are hereby repealed. Bom Act XVII of 1920

STATEMENT OF OBJECTS AND REASONS.

The Indian Bar Committee made the following recommendations in regard to *vakalatnamas* :—

1. *Vakalatnamas.*—Distinctions between barristers and vakils should be abolished. All practitioners should be required to file *vakalatnamas* when they act, but should have the option of filing a memorandum of appearance when they merely appear and plead. This should not apply to advocates who under the existing rules can only appear on the Original Sides of the Calcutta, Bombay and Madras High Courts on the instructions of an attorney. (Paragraphs 18, 21 and 23 of the Report.)

2. High Courts should be given power to determine the Courts and classes of cases in which a memorandum of appearance might be substituted for a *vakalatnama* where a practitioner acts on behalf of an accused person. (Paragraph 24 of the Report.)

3. The proposed memorandum of appearance might be made liable to the same Court fee as a *vakalatnama* to avoid loss of revenue. (Paragraph 24 of the Report.)

These recommendations have been generally accepted by Local Governments and High Courts, and this Bill proposes to give effect to them with the following exceptions :—

(*a*) In lieu of the proposed exception of advocates appearing on the Original Side of the Calcutta, Bombay and Madras High Courts on the instructions of an attorney, a general provision has been included with the object of securing that, when a *vakalatnama* has been filed by a pleader duly appointed to act in Court in the proceedings, a pleader instructed by him to plead only will not be required to file even a memorandum of appearance.

(*b*) No provisions are included in the Bill in regard to the filing of memoranda of appearances in criminal cases. The Government of India consider that this question should be left to be decided by the High Courts concerned, but they doubt whether such memoranda should be required to be stamped.

(*c*) The question of whether memoranda of appearances in civil cases should be stamped is omitted from the Bill, as it is considered that it should be decided by the local Legislatures concerned by amendment of the Schedule of the Court Fees Act, 1870.

Advantage has been taken of this opportunity to embody in Order III of Schedule I to the Code of Civil Procedure the substance of the provision of sub-section (*3*) of section 10 of the Bombay Pleaders Act and of rule 4 (*4*) in Order III of the Schedule made by the High Court of Madras under section 122. This will mean that a separate *vakalatnama* will not be required for appearances in appeals, etc., or for getting copies of documents and so on after the proceedings in the original suit are ended.

Repeals.

5. Clause (*b*) of sub-section (*2*) of section 19 of the Central Provinces Courts Act, 1917, clause (*b*) of sub-section (*2*) of section 30 of the Punjab Courts Act, 1918, and clause (*b*) of sub-section (*2*) of section 31 of the Oudh Courts Act, 1925, are hereby repealed.

C. P. Act I of 1917. Pun. Act VI of 1918. U. P. Act IV of 1925.

STATEMENT OF OBJECTS AND REASONS.

Section 4 of the Guardians and Wards Act, 1890 (VIII of 1890), defines "the Court",—

(*i*) in respect of an application to appoint or declare a guardian, as the District Court having jurisdiction to entertain the application; and

(*ii*) in all proceedings subsequent to the appointment or declaration of the guardian, as the Court which appointed or declared the guardian, or, in any matter relating to the person of the ward, as the District Court having jurisdiction in the place where the ward for the time being ordinarily resides.

Under section 30 of the Punjab Courts Act, 1918, section 31 of the Oudh Courts Act, 1925, and section 19 of the Central Provinces Courts Act, 1917, the High Court, Chief Court and the Judicial Commissioner's Court, respectively, may authorise, by general or special order, any Subordinate Judge to take cognizance of, or any District Judge to transfer to a Subordinate Judge under his control, any proceedings under the Guardians and Wards Act, 1890.

In order to lighten the work of District Judges, the Civil Justice Committee recommended that similar provisions should be inserted in the Civil Courts Acts in force in other provinces. Local Governments and High Courts were consulted upon the advisability of adopting the recommendation and also upon the suggestion that, if the recommendation was accepted, effect should be given to it by central legislation, as it affected the jurisdiction of High Courts of Judicature. The recommendation and the suggestion have met with general acceptance.

2. The Bill gives effect to the proposals of the Committee. Under it the District Judge will have power to transfer all the proceedings relating to particular estates to be disposed of by a Judge of a Court subordinate to him who has been especially empowered and also the proceedings in regard to any particular matter connected with an estate.

The Bill further repeals the connected provisions in the various local laws.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 21st January, 1926 :—

No. 4 OF 1926.

A Bill to resolve certain doubts as to the powers, in regard to the attachment of immoveable property, of Provincial Small Cause Courts.

WHEREAS it is expedient further to amend the Provincial Small Cause Courts Act, 1887, and the Code of Civil Procedure, 1908, for the purpose of resolving certain doubts which have arisen as to the powers, in regard to the attachment of immoveable property, of Courts constituted under the Provincial Small Cause Courts Act, 1887, and of Courts exercising the jurisdiction of a Court of Small Causes under that Act ; It is hereby enacted as follows :— IX of 1887. V of 1908. IX of 1887.

Short title.

1. This Act may be called the Small Cause Courts (Attachment of Immoveable Property) Act, 1926.

Amendment of section 17, Act IX of 1887.

2. (*1*) In sub-section (*1*) of section 17 of the Provincial Small Cause Courts Act, 1887, for the words beginning with the words "The procedure" and ending with the words "are applicable" the following shall be substituted, namely :— IX of 1887.

"The procedure prescribed in the Code of Civil Procedure, 1908, shall, save in so far as is otherwise provided by that Code or by this Act". V of 1908.

(*2*) In sub-section (*2*) of the same section, for the figures "253" the figures "145" shall be substituted, and after the words "Code of Civil Procedure" the figures "1908" shall be added.

Amendment of section 7, Act V of 1908.

3. In clause (*b*) of section 7 of the Code of Civil Procedure, 1908 (hereinafter referred to as the said Code), for the words "so far as they relate to injunctions and interlocutory orders" the following shall be substituted, namely :— V of 1908.

"so far as they authorise or relate to—

(*i*) orders for the attachment of immoveable property,

(*ii*) injunctions,

(*iii*) the appointment of a receiver of immoveable property, or

(*iv*) the interlocutory orders referred to in clause (*e*) of section 94".

Amendment of Order XXXVIII in the first Schedule to Act V of 1908.

4. To Order XXXVIII in the First Schedule to the said Code, after rule 12 the following rule shall be added, namely :—

Small Cause Court not to attach immoveable property.

"13. Nothing in this order shall be deemed to empower any Court of Small Causes to make an order for the attachment of immoveable property."

STATEMENT OF OBJECTS AND REASONS.

Under section of the Code of Civil Procedure, 1908, so much of the body of the Code as relates to—

(i) suits excepted from the cognizance of a Court of Small Causes;

(ii) the execution of decrees in such suits;

(iii) the execution of decrees against immoveable property;

and sections 9, 91, 92, 94 and 95 (so far as these two sections relate to injunctions and interlocutory orders), and sections 96 to 112 and 115 do not extend to Courts constituted under the Provincial Small Cause Courts Act, 1887, or to Courts exercising the jurisdiction of a Court of Small Causes under that Act. Section 15 (1) of the Provincial Small Cause Courts Act, read with the Second Schedule to that Act, provides for the exception of suits relating to immoveable property from the jurisdiction of a Court of Small Causes. In view of conflicting decisions on the question whether such a Court has jurisdiction to order an attachment of immoveable property before judgment, the whole question was considered in detail by a Full Bench of the Calcutta High Court in the case Barada Kanta Shaha Ray *vs.* Sheikh Maij-ud-di (52 Calc. 275). The Hon'ble Judges constituting the Bench held by a majority that a Court of Small Causes has such jurisdiction, but expressed a doubt as to the intention of the Legislature in the matter when the Code was passed in 1908.

2. Before 1908, except possibly for a short period, a Court of Small Causes never exercised any such jurisdiction, and when the present Code of Civil Procedure was enacted in 1908, it appears that the Legislature did not intend to alter the pre-existing law. The Bill proposes to make it clear that a Provincial Small Cause Court has not the power referred to.

"toy cannons, air guns and air pistols for the time being excluded, in any part of British India, from the operation of all the prohibitions and directions contained in the Indian Arms Act, 1879: and bows and arrows".

STATEMENT OF OBJECTS AND REASONS.

The object of this Bill is to give effect to certain minor amendments which it is proposed to make in Schedule II of the Indian Tariff Act, 1894. The proposals are dealt with seriatim below. They are included in a separate Tariff Bill instead of in the Finance Bill, because they are not important from the revenue point of view and have not been made primarily with reference to the revenues of 1926-27.

2. *Cement.*—The present duty on cement is an *ad valorem* one of 15 per cent. assessed on a tariff valuation. The price of cement has shown a tendency to fall. The tariff valuation for 1926 has been reduced from Rs. 60 to Rs. 55 per ton, thereby reducing the duty payable from Rs. 9 to Rs. 8·4 a ton. It was clear from the report of the Tariff Board on Cement that imported cement can well bear an import duty of Rs. 9 a ton, and in order to stabilise the revenue it is proposed to substitute a specific duty of Rs. 9 per ton for the existing *ad valorem* duty of 15 per cent.

3. *Printer's ink.*—In its report, the Tariff Board, while finding that the case for protection of the Printer's Ink Industry had not been justified, found that under the existing Tariff Schedule the industry suffers from a direct disability, since the import duty on printer's ink is at the concession rate of 2½ per cent. *ad valorem*, and the duties on the necessary constituents are at the rate of 15 per cent. *ad valorem*. This disability the Board considers would be removed if the duty on printer's ink be raised to 5 per cent. The Government of India accept this conclusion and now propose to give effect to it.

4. *Saccharine.*—Three years ago the duty on saccharine was raised from 25 per cent. *ad valorem* to a specific rate of Rs. 20 a lb., which was approximately the duty then payable on a quantity of sugar of equivalent sweetening effect. This was, however, an extremely heavy rate on an *ad valorem* basis, and its imposition has served to encourage smuggling rather than increase revenue or check imports. It is believed that a reduction is needed (*a*) to protect Government revenues, and (*b*) to place trade on a healthier basis. It is accordingly proposed to reduce the duty to Rs. 5 per lb. Saccharine tabloids are mostly used on medical prescription, and it is proposed to subject them to the specific duty or the ordinary *ad valorem* one on pharmaceutical preparations, whichever is higher.

5. *Handlooms and specified parts thereof.*—It is proposed to reduce the duty from 15 to 2½ per cent. *ad valorem* on handlooms and most component parts. The parts in question are at present assessable at 15 per cent. or 2½ per cent. according as they are or are not of shapes or sizes which can be used in handlooms. The change is generally advocated by Local Governments in the interests of handloom weavers, whilst the differentiation in treatment between parts for handlooms and machine looms, etc., causes much inconvenience to customs administration, incommensurate with the revenue at stake since imports of these articles for handloom purposes are very small.

6. *Hay presses.*—It is the policy of the Government of India to encourage the development of agriculture by permitting the free import of agricultural machinery. On the advice of the Agricultural Adviser to Government, who states that hay presses are now coming into more general use, it has been decided in accordance with this policy to admit them into India free of duty.

7. *Sticklac.*—It is proposed to abolish the import duty of 15 per cent. on this article as being a raw material of an important industry. The shellac industry in India is experiencing increased competition in the world's markets from synthetic resinous compounds and from lac derivatives manufactured in America and Germany from sticklac exported from Siam. The effect of the present import duty is to raise still further the cost of lac to Indian manufacturers when the Indian lac crop is short; and when the local crop is plentiful, there are practically no imports and consequently no revenue. The duty therefore serves no useful purpose.

8. *Lubricating oils.*—The proposal is to substitute a specific duty of one anna and four pies per gallon for the existing *ad valorem* duty of 7½ per cent. The assessment of duties on these oils on an *ad valorem* basis is a constant source of difficulty and dispute at Custom Houses owing to the number of grades and varying values of these oils. The difficulty is increased owing to the trade custom whereby direct contracts at special rates are made with large consumers rendering thereby the determination of market-values as required by section 30 of the Sea Customs Act, a matter of some difficulty. Specific duties would seem to be more appropriate than *ad valorem* rates and are in fact adopted by most countries for these articles. The rate proposed has been determined after careful inquiry so as not to be high on heavier engine oils. For the sake of uniformity, it is proposed also to change the duty on batching oil to a specific one of Rs. 10 per ton. This is exactly the rate at present in force on a tariff valuation basis.

9. *Arms.*—Schedule II of the Indian Arms Rules, 1924, defines the weapons which are subject to the Indian Arms Act, others being either toys or curios. The only items in the Tariff Schedule referring to firearms are items 12, 42 and 126 which do not differentiate between weapons of offence or defence and those which are merely toys, curios or ornaments with the result that all these are liable to a duty of Rs. 15 each. It is proposed to alter the relevant items of the Tariff Schedule to make it conform with the Indian Arms Rules, 1924, thereby placing toy pistols, etc., curios, etc., under their proper heading. The opportunity has also been taken to improve the drafting of item 42.

10. The amendments are intended to come into effect from the seventh day after this Bill becomes law.

DEPARTMENT OF AGRICULTURE, BENGAL.

Second Forecast of the Wheat Crop of Bengal, 1925-26.

(NOTE.—On an average of the five years ending 1923-24, the area under wheat in Bengal has represented some 0·4 per cent. of the total area under wheat in India. The ratio of the irrigated wheat acreage to total wheat acreage in (*a*) British India and (*b*) in the territory now reported on has, in the five years ending 1923-24, averaged (*a*) 42·2 and (*b*) 14·7 per cent. respectively).

Character of the season.—The rainfall in the months of September and October was sufficient for the preparatory tillage. Sowings, in consequence, commenced in the usual time. During the month of December the crop flourished, but since then drought has interfered with its development, especially in the important districts of Malda, Nadia, Murshidabad and Rajshahi. The present outlook, on the whole, is generally fair.

Acreage.—According to the District Officers' estimates, the total area sown is 130·600 acres this year as against 126·200 and 126·400 acres reported respectively in the corresponding and final forecasts of last year.

Outturn.—The provincial outturn, as worked out from district estimates, is 78 per cent. of the normal as against 81 and 64 per cent., respectively, in the corresponding and final forecasts of last year.

The rate at which the tax is imposed on motor vehicles which are kept, offered or ply for hire may be different from that at which the tax is imposed on other classes of motor vehicles. [Cf. Ben. Act III of 1884, s. 86.]

(2) The tax shall be levied half-yearly in two equal instalments.

[Cf Ben. Act III of 1884, s. 131.]

5. In making an order under section 4 or by a subsequent order, the local authority at a meeting may exempt from the tax, imposed under section 4, any motor vehicle or class of motor vehicles.

Duration of tax.

6. The order of the local authority imposing a tax under section 4 shall continue in force until rescinded and the tax shall be levied at the rates specified in the order published as aforesaid, unless and until the local authority at a meeting, held not less than fifteen days before the end of the year, makes and publishes an order specifying, with the approval of the Local Government, different rates at which the tax shall be payable for the ensuing year. [Cf. Ben. Act III of 1884, s. 133.]

8. If any person acquires possession, at any time after the commencement of any half-year, of any motor vehicle in respect of which no license has been given by any local authority under this Act or by the Corporation of Calcutta under the Calcutta Municipal Act, 1923, for such half-year, he shall forward a statement as required under section 7 within one month of the date on which he may have acquired possession thereof, and shall pay such amount of the tax as shall bear the same proportion to the whole tax for the half-year as the unexpired portion of the half-year bears to the half-year; and such amount shall be calculated from the date on which such person may have acquired possession as aforesaid. [Cf. Ben. Act III of 1884, s. 134.] [Ben. Act III of 1923.]

Grant of license on payment of tax.

9. (1) On receiving the amount of the tax due, the local authority or some person authorised by the local authority in that behalf, shall give to the person paying the tax a license for the motor vehicle for the period in respect of which the amount is received. [Cf. Ben. Act III of 1884, s. 135.]

(2) Such license shall be for the current half-year and no longer.

[Cf. Ben. Act III of 1884, s. 138.]

Power to seize and dispose of motor vehicles.

14. (*1*) If, on an inspection under section 13, any motor vehicle is found in respect of which no license has been obtained, the local authority— [Cf. Ben. Act III of 1923, s. 172 (2), (3) and (4).]

(*a*) may, if the owner or person in charge of such vehicle is unknown, take possession of such vehicle, and

(*b*) shall thereupon make such order as the local authority may think fit respecting the custody of such vehicle.

(*2*) If any person, within one month from the date of such order, establishes, to the satisfaction of the local authority, his claim to the possession of such vehicle, the local authority shall order it to be delivered to him on payment of the tax due, together with such costs as the local authority has reasonably incurred in taking possession of and keeping the vehicle.

(*3*) If no person within the said period satisfies the local authority that he is entitled to the possession of such vehicle, the local authority may—

(*i*) cause the vehicle to be sold for the recovery of the tax and costs referred to in sub-section (*2*), and

(*ii*) order the sale-proceeds, after deducting therefrom the said tax and costs (together with the costs of the sale), to be paid to any person who, within six months from the date of such sale, establishes, to the satisfaction of the local authority, his claim to such proceeds.

[Cf. Ben. Act III of 1884, s. 140.]

[Cf. Ben. Act III of 1884, s. 141A.] Ben. Act III of 1923.

Penalty for failure to attend when summoned under section 15.

25. Whoever fails to attend when summoned under section 15 shall be liable to a fine which may extend to fifty rupees.

STATEMENT OF OBJECTS AND REASONS.

The District Boards and Municipalities in Bengal have for some time past made a grievance of the fact that although their roads are seriously damaged by the ever-increasing motor-traffic, they are unable to impose taxation on motorists in spite of the fact that in municipal areas the owners of all other kinds of vehicles are required to take out licenses on payment of fees. The Indian Motor Vehicles Act, 1914 (VIII of 1914), provides for the registration of motor vehicles both in Calcutta and in the mufassal: fees are levied for such registration, but the proceeds are credited to provincial revenues. The Calcutta Corporation, in addition to the fees imposed under the Motor Vehicles Act, requires the owners of motor vehicles to take out licenses on payment of fees. But mufassal Municipalities and District Boards have no such power under the existing Bengal Municipal and Local Self-Government Acts. In the Bengal Municipal Bill, 1925, power was taken for the Municipalities to tax motor vehicles, but the motion for the introduction of this Bill was rejected by the Bengal Legislative Council at the last December session. The general amendment of the Local Self-Government Act cannot be taken up immediately though steps are being taken to prepare a Bill. It is therefore proposed to take power in the present Bill for District Boards and Municipalities to tax motor vehicles kept within their jurisdiction.

The sub-joined Notes explain the clauses of the Bill in detail.

KSHAUNISH CHANDRA RAY,
Member-in-charge.

CALCUTTA:
The 23rd December, 1925.

NOTES ON CLAUSES.

Clause 2.—The definition of "motor vehicles" in sub-clause (*2*) has been taken from the Indian Motor Vehicles Act, 1914.

The definition of "year" in sub-clause (*3*) has been made wide enough to allow the year to be calculated from any date other than the 1st day of April. This is based on section 6 (*19*) of the Bengal Municipal Act, 1884.

Clause 3.—This clause authorises a local authority to impose separate rates of taxes on motor vehicles which are kept for hire and on private vehicles. The tax is to be recovered in two half-yearly instalments.

Clause 4.—Sub-clauses (*1*) and (*2*) provide for the rates at which the tax is to be levied. Sub-clause (*3*) indicates the vehicles which are to be exempt from taxation.

Clause 5.—The local authority has been given power to exempt other motor-vehicles or any special classes of motor vehicles from taxation.

Clause 6 provides for the levy of the tax at the rate specified until a different rate of tax is imposed, and is based on section 132 of the Bengal Municipal Act, 1884.

Clause 7 requires owners of motor vehicles to submit half-yearly statements containing descriptions of motor vehicles liable to the tax. This is based on section 133 of the Bengal Municipal Act, 1884.

Clause 8 provides for the payment of an amount less than the full tax for the half-year in respect of motor vehicle acquired during the half-year.

Clause 9 provides for the grant of a license on payment of the tax, which will remain in force for the half year in which the payment is made.

Clause 10 provides that in the absence of the owner the person in possession of the vehicle for the time being shall be liable to pay the tax.

Clause 11 empowers the local authority to compound with persons keeping motor vehicles for hire for the payment of a certain sum instead of the tax.

Clause 12 provides that the local authority shall keep a list of persons licensed.

Clause 13 empowers authorised persons to inspect garages, etc., and is based on section 140 of the Bengal Municipal Act.

Clause 14 confers power on the local authority to seize unlicensed motor vehicles and to dispose of the same in certain circumstances. It is based on section 172 of the Calcutta Municipal Act, 1923.

Clause 15 authorises the Chairman or Vice-Chairman of a local authority to summon persons for examination as to the number and description of the motor vehicles for which such persons are liable to be taxed.

Clause 16 prohibits the levy of more than one tax for the same period from the same party in respect of a motor vehicle which is used in an area outside the jurisdiction of the local authority.

Clause 17 deals with the apportionment of the tax between two or more local authorities within the jurisdiction of which a motor vehicle is kept or used.

Clause 19 declares certain servants of local authorities to be public servants.

Clause 20 deals with the realisation of the moneys due under the proposed Act. In municipal areas, such dues are to be realised in the manner provided for in the Bengal Municipal Act, 1884, for realisation of the taxes. In other areas the provisions of the Bengal Village Self-Government Act, 1919, are to apply for the realisation of the dues.

Clause 21 provides for the crediting of all sums realised to the respective local funds.

Clause 22 empowers the Local Government to make certain rules.

Clause 23 provides for the imposition of a fine on a person who keeps a motor vehicle without a license.

Clause 24 renders a person who fails to forward the statements of his motor vehicles required by sections 7 (*1*) and 8 liable to a fine.

Clause 25 imposes a penalty in a case of failure to comply with a summons under section 15.

II. The draft will be taken into consideration on or after the 22nd April 1926, and any objections or suggestions received before that date will be considered :—

Draft rules and schedule of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable ; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj, on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as below :—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements :—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches ; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral muntiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.** The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting remainder of less than 500 maunds. In the case of steamers and motor boats, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. 2. The draft will be taken into consideration on or after the 22nd April 1926, and any objections or suggestions received before that date will be considered :—

Draft rules and schedule of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable ; in case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj on this behalf.

2 Vessels for the purpose of the determination of maundage shall divided into two classes as below :—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—To include steam boats, motor boats, flats and barges and other square built vessels.

3. The maundage of every vessel, whether laden or empty, shall, for the purpose of Act V (B. C.) of 1864 and of these rules, be determined by the following measurements :—

CLASS I.

A. The product of one quarter the length of the vessel from stem to stern, measured along the water line, multiplied by the interior greatest breadth of the vessel, multiplied by the depth from the water-line to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

B. The measurement of the length is to be made in feet, rejecting inches ; the measurement of breadth and depth is to be made in feet and quarters of a foot, rejecting any remainder of less than a quarter of a foot.

C. The maundage on which the amount of toll is calculated shall be reckoned to the nearest integral multiple of 12½ maunds, any remainder of less than 12½ maunds being rejected. In the case of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned to the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.**—The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessel of class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one-half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting any reminder of less than 500 maunds. In the case of steamers and motor boats the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10. The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

11. No rafts exceeding 50 feet in length and 5 feet in breadth shall be permitted to enter the canals.

12. The rates of toll shall be as follows:—

If, however, the second halves of the return tickets are actually utilised, the officer should make a declaration in due course to the Audit Officer that the tickets have actually been utilised.

No refund will be made by a Steamship Company under this rule except to the Audit Officer, who will make the necessary adjustment of the amount between the officer and the Government if the cost of the passage involved or any portion thereof has been borne by the officer.

Any objection or suggestion which may be received from any person in respect to the draft before the said date will be considered by the Governor General in Council:—

Draft Rules.

1. (1) These rules may be called the Boats and Life Saving Appliances (Pilgrim Ships) Rules, 1926.

(2) They apply to Pilgrim Ships and shall come into force on the 1st January 1927 from which date rules 6 to 9 and 16 and 17 of the rules published with the notification of the Government of India in the Home Department, No. 1902 (Sanitary), dated the 14th October 1910, shall cease to have effect.

2. In these rules unless there is anything repugnant in the subject or context :—

Definitions.

(1) "Approved" means approved by the local Government.

(2) "Boat-deck" means any deck on which boats are carried and of which the space required for the stowage of boats under rule 19 occupies half or more of the length or breadth of such deck.

(3) "Daylight" means the period from one hour before sunrise until one hour after sunset.

(4) "Length" in connection with a ship means the registered length of the ship.

Davits.

3. (1) Every pilgrim ship shall, subject to the provisions of sub-rule (1) of rule 27 be provided, in accordance with its length, with the number of sets of davits specified in column A of the Table in the Appendix to these rules :

Provided that the local Government may, where it appears to them necessary, having regard to the height at which the boats are carried above the centre of the load line disc, and to the other circumstances of the case, require a ship of this class to carry in lieu of, or in addition to davits, some other approved form of launching appliances, or such arrangements for launching boats as may be, in their opinion, effective.

Lifeboats.

(2) (a) Pilgrim ships launched before the 1st January 1927, shall carry lifeboats, of which at least one shall be a motor boat, in such number and of such aggregate capacity as shall be sufficient to accommodate fifty per cent. and in the case of those launched on or after the 1st January 1927, seventy-five per cent. of the total number of persons which is carried or which the ship is certified to carry, whichever number is the greater.

(b) Each set of davits shall have a lifeboat of class I attached to it, and of these lifeboats at least the minimum number specified in column B of the Table in the Appendix to these rules shall be open boats. The minimum aggregate cubic capacity of the lifeboats to be attached to the davits shall be in accordance with the scale specified in column C of the table in the said Appendix.

(c) Any additional lifeboats which may be required to make up the total lifeboat accommodation required by clause (a) may be boats of class I or class II.

Buoyant apparatus.

4. If the lifeboats carried do not provide sufficient accommodation for the total number of persons which is carried, or which the ship is certified to carry, whichever number is the greater, approved buoyant apparatus shall be carried sufficient for those persons for whom accommodation is not provided in lifeboats.

Exemptions in case of specified voyages.

5. Notwithstanding anything contained in clause (a) of sub-rule (2) of rule 3 or in rule 4 the master or owner of a pilgrim ship may carry on any voyage fewer lifeboats and approved buoyant apparatus than will provide sufficient accommodation for all the persons for which the ship is certified, if he declares before the Port Officer at the time of clearance that the lifeboats and approved buoyant apparatus actually carried will be sufficient to accommodate all persons who will be carried at any time during the voyage from and also during the voyage back to British India.

Lifebuoys.

6. If the ship is under 400 feet in length, at least twelve approved lifebuoys shall be carried ; if 400 feet or over, but under 600 feet, at least eighteen approved lifebuoys shall be carried ; if 600 feet or over, but under 800 feet, at least twenty-four approved life-buoys shall be carried ; and if 800 feet or over, at least thirty approved lifebuoys shall be carried.

Lifejackets.

7. One approved lifejacket shall be carried for each person on board.

Power to accept alternatives

8. The local Government shall have power in general or in any particular case, to accept any boat, buoyant apparatus, other life-saving appliance or arrangement, in lieu of a life-saving appliance or arrangement required by these rules, subject to such conditions as they may impose, if they are satisfied that under those conditions it will be as effective as the appliance or arrangement required by these rules :

Provided that in the case of a ship launched on or after 1st January 1927, no life-saving appliance shall be accepted in lieu of a lifeboat required by these rules, except some other approved type of lifeboat.

Classification of life-boats.

9. For the purposes of these rules lifeboats are arranged in the following classes :—

CLASS I.

A.—*Open lifeboats with internal buoyancy only.*

The buoyancy of a wooden boat of this type shall be provided by water-tight air-cases, the total volume of which shall be at least equal to one-tenth of the cubic capacity of the boat.

In the case of a metal boat an addition shall be made to the cubic capacity of the airtight compartments, so as to give it buoyancy equal to that of the wooden boat.

B.—*Open lifeboats with internal and external buoyancy.*

The internal buoyancy of a wooden boat of this type shall be provided by water-tight air-cases, the total volume of which shall be at least equal to seven and a half per cent. of the cubic capacity of the boat.

If the external buoyancy is of cork, its volume, for a wooden boat, shall not be less than thirty-three thousandths of the cubic capacity of the boat; if of any material other than cork, its volume and distribution shall be such that the buoyancy and stability of the boat are not less than that of a similar boat provided with external buoyancy of cork.

In the case of a metal boat an addition shall be made to the cubic capacity of the airtight compartments, so as to give it buoyancy equal to that of the wooden boat.

C.—*Pontoon lifeboats having a well deck and fixed watertight bulwarks.*

The area of the well deck of a boat of this type shall be at least thirty per cent. of the total deck area. The height of the well deck above the water line at all points shall be at least equal to one-half per cent. of the length of the boat, this height rising to one and a half per cent. of the length of the boat at the ends of the well.

The freeboard of a boat of this type shall be such as to provide for a reserve buoyancy of at least thirty-five per cent.

CLASS II.

A.—*Open lifeboats having the upper part of the side collapsible.*

A boat of this type shall be fitted both with watertight air-cases and with external buoyancy the volume of which for each person which the boat is able to accommodate shall be at least equal to the following amounts :—

	Cubic feet.
Air-cases	1·5
External buoyancy (if of cork)	0·2

The minimum freeboard of boats of this type is fixed in relation to their length; it shall be measured vertically to the top of the solid hull at the side amidships from the water-level when the boat is loaded.

The freeboard in fresh water shall not be less than the following amounts :—

Length of the Boat in feet.	Minimum Freeboard in inches.
26	8
28	9
30	10

The freeboard of boats of intermediate lengths shall be found by interpolation.

B.—*Pontoon lifeboats having a well deck and collapsible bulwarks.*

All the conditions laid down for boats of Class IC shall be applied to boats of this type, which differ from those of Class IC only in regard to the bulwarks.

C.—*Pontoon lifeboats having a flush deck and collapsible bulwarks.*

The minimum freeboard of boats of this type is independent of their length and depends only upon their depth. The depth of the boat shall be measured vertically from the underside of the garboard strake to the top of the deck at the side amidships and the freeboard shall be measured from the top of the deck at the side amidships to the water-level when the boat is loaded

The freeboard in fresh water shall not be less than the following amounts which are applicable without correction to boats having a mean sheer equal to three per cent. of their length :—

Depth of Boat in inches.	Minimum Freeboard in inches.
12	$2\frac{3}{4}$
18	$3\frac{3}{4}$
24	$5\frac{1}{2}$
30	$6\frac{1}{2}$

For intermediate depths the freeboard shall be obtained by interpolation.

If the sheer is less than the standard sheer defined above, the minimum freeboard shall be obtained by adding to the figures in the table one-seventh of the difference

between the standard sheer and the actual mean sheer measured at the stem and stern post; no deduction shall be made from the freeboard on account of the sheer being greater than the standard sheer or on account of the camber of the deck.

Motor boats.

10. (1) A motor boat carried as part of the statutory life-saving appliances of a pilgrim ship shall comply with the following conditions:—

(a) It shall comply with the requirements for a lifeboat of Class I, and proper appliances shall be provided for putting it into the water speedily.

(b) It shall be adequately provided with fuel, and keep so as to be at all times ready for use.

(2) In fixing the volume of the internal buoyancy and, where fitted, the external buoyancy, regard shall be had to the difference between the weight of the motor and its accessories, and the weight of the additional persons which the boat could accommodate if the motor and its accessories were removed.

(3) Notwithstanding anything contained in this rule, a lifeboat fitted with the Fleming gear shall be accepted in lieu of a motor boat, provided that it otherwise complies with the requirements specified in the said sub-sections.

Construction of life boats.

11. (1) All boats shall be properly constructed, and shall be of such form and proportions that they shall have ample stability in a sea-way, and sufficient freeboard when loaded with their full complement of persons and equipment. They shall be fitted and arranged to the satisfaction of the local Government.

(2) The structural strength of the boats shall be to the satisfaction of the local Government. In the case of ships launched on or after the 1st January 1927, the strength shall be sufficient to permit of the boats being safely lowered into the water with the full complement of persons and equipment on board.

Seating accommodation.

(3) In all open boats, all thwart and side seats shall be fitted as low in the boat as practicable, and shall provide seating accommodation for all persons the boat is deemed fit to carry, and bottom boards shall be fitted so that the thwarts shall not be more than 2 feet 9 inches above them.

Buoyancy

(4) Internal buoyancy apparatus shall be constructed of copper or yellow metal of not less than 18 ounces to the superficial foot, or of other durable material, and in open boats of Class 1 may be placed along the sides or at the ends of the boat, but not in the bottom of the boat. External buoyancy apparatus may be of cork or of any other equally efficient approved material; the use of rushes, cork shavings, loose granulated cork, or any other loose granulated substance, and the use of apparatus dependent upon inflation by air, is prohibited.

Sheer.

(5) Open lifeboats of Class I shall have a mean sheer at least equal to four per cent. of their length.

Pontoon lifeboats.

(6) Pontoon lifeboats may be built of wood or metal. If constructed of wood, they shall have the bottom and deck made of two thicknesses with textile material between; if of metal, they shall be divided into watertight compartments with means of access to each compartment and shall be provided with at least two bilge pumps.

(7) All pontoon lifeboats shall be fitted with efficient means for quickly clearing the deck of water. The orifices for this purpose shall be such that the water cannot enter the boat through them when they are intermittently submerged. The number and size of the orifices shall be determined by the local Government for each type of boat by a special test.

For the purpose of this test:—

(a) The pontoon boat shall be loaded with a weight of iron equal to that of its complement of persons and equipment;

(b) In the case of a boat 28 feet in length, two tons of water shall be cleared from the boat in a time not exceeding the following:—

Class IC	...	...	...	60 seconds.
Class IIB	...	...	...	60 „
Class IIC	...	...	...	20 „

In the case of a boat having a length greater or less than 28 feet the weight of water to be cleared in the same time shall be for each type directly proportional to the length of the boat.

(8) No boat shall be accepted as a lifeboat the buoyancy of which depends upon the previous adjustment of one of the principal parts of the hull.

(9) All boats shall be fitted for the use of a steering oar.

Marking of lifeboats.

(10) All boats shall be permanently marked to the satisfaction of the local Government in such a way as to indicate plainly their dimensions and the number of persons for which they are approved. Boats that have been properly marked need not be re-measured, unless there is reason to believe that the marks have been tampered with or are otherwise defective or improper.

12. (1) The number of persons which a lifeboat shall be deemed fit to carry shall be equal to the greatest whole number obtained by dividing the capacity of the boat in cubic feet, or the surface of the boat in square feet, as the case may be (calculated as provided by rules 13 and 14), by the standard unit of capacity, or unit of surface, defined below.

Number of persons

(2) The cubic capacity in feet of a boat in which the number of persons is determined by the surface shall be assumed to be ten times the number of persons which the boat is authorised to carry.

(3) The standard units of capacity and surface are as follows :—

Units of capacity.	Cubic feet.
Class IA	10
Class IB	9
Units of surface.	**Square feet.**
Class IIA	$3\frac{1}{2}$
Class IIC	$3\frac{1}{2}$
Class IC	$3\frac{1}{4}$
Class IIB	$3\frac{1}{4}$

(4) The local Governments may accept a smaller divisor for pontoon boats of Class IC and Class IIB, if they are satisfied after trial that the number of persons for whom there is seating accommodation in the boat in question is greater than the number obtained by applying the above divisor, provided always that the divisor adopted in place of $3\frac{1}{4}$ shall never be less than 3.

(5) The number of persons obtained by the above rules shall be reduced :—

(i) If it is greater than the number of persons for which there is proper seating accommodation, the latter number being determined in such a way that the persons when seated do not interfere in any way with the use of the oars, or

(ii) If, in the case of boats other than open boats of Class I, the freeboard when the boat is fully loaded is less than the freeboard required by these Rules.

(6) If the Government Surveyor is doubtful as to the number of persons any boat is fit to carry he may require the boat to be tested afloat with the intended number of persons on board.

Test afloat

(7) The local Government may limit the number of persons to be allowed in boats with very fine ends and in boats very full in form.

Children.

(8) Two persons of the age of one year or upwards and under the age of twelve years shall be reckoned as one person.

Cubic capacity of Open Boats of Class I.

13. (1) In the case of an open boat of Class I the cubic capacity shall be determined by the following formula :—

$$\text{Capacity} = \frac{l}{12}(4A + 2B + 4C).$$

l denotes the *length* of the boat in feet from inside of the planking or plating at the stem to the corresponding point at the stern post ; in the case of a boat with a square stern the length is measured to the inside of the transom.

A, *B*, *C* denote respectively the *areas of the cross-sections at the quarter* length forward, amidships, and the quarter length aft, which correspond to the three points obtained by dividing *l* into four equal parts (the areas corresponding to the two ends of the boat are considered negligible).

The areas *A*, *B*, *C* shall be deemed to be given in square feet by the successive application of the following formula to each of the three cross-sections :—

$$\text{Area} = \frac{h}{12}(a + 4b + 2c + 4d + e).$$

h denotes the *depth* measured in feet inside the planking or plating from the keel to the level of the gunwale, or, in certain cases to a lower level, as determined hereafter.

a, *b*, *c*, *d*, *e* denote the horizontal *breadths* of the boat measured in feet to the inside of the planking at the upper and lower points of the depth and at the three points obtained by dividing *h* into four equal parts (*a* and *e* being the breadths at the extreme points, and *c* at the middle point, of *h*).

(2) If the sheer of the gunwale, measured at the two points situated at a quarter of the length of the boat from the ends, exceed 1 per cent. of the length of the boat, the depth employed in calculating the area of the cross-section *A* or *C* shall be deemed to be the depth amidships *plus* 1 per cent. of the length of the boat.

(3) If the depth of the boat amidships exceeds 45 per cent. of the breadth, the depth employed in calculating the area of the midship cross-section B shall be deemed to be equal to 45 per cent. of the breadth, and the depth employed in calculating the areas of the quarter length sections A and C shall be obtained by increasing this last figure by an amount equal to 1 per cent. of the length of the boat, provided that in no case shall the depths employed in the calculation exceed the actual depths at these points.

(4) If the depth of the boat is greater than 4 feet the number of persons given by the application of these Rules shall be reduced in proportion to the ratio of 4 feet to the actual depth, until the boat has been tested afloat with that number of persons on board, all wearing lifejackets, and the test has proved satisfactory.

(5) The cubic capacity of a boat may be assumed to be the product of the length, the breadth and the depth multiplied by 0·6 in cases where it is clear that this formula does not give a greater capacity than that obtained by the above method. The dimensions shall then be measured in the following manner :—

Length : From the intersection of the outside of the planking with the stem to the corresponding point at the stern post or, in the case of a square sterned boat, to the after side of the transom.

Breadth : From the outside of the planking at the point where the breadth of the boat is greatest.

Depth : Amidships inside the planking from the keel to the level of the gunwale, but the depth used in calculating the cubic capacity may not in any case exceed 45 per cent. of the breadth.

In all cases the shipowner shall have the right to require that the cubic capacity of the boat shall be determined by exact measurement.

(6) If the oars are pulled in rowlocks, the bottom of the rowlocks shall be considered as the gunwale in measuring the depth of the boat.

Cubic capicity of motor boats.

(7) The cubic capacity of a motor-boat shall be obtained from the gross capacity by deducting a volume equal to that occupied by the wireless telegraphy installation, the searchlight, the motor and its accessories.

Deck area and capacity of Pontoon Boats and of Open Boats of Class II.

14. In the case of Pontoon Boats and of open boats of Class II the surface in square feet shall be determined by the following formula :—

$$\text{Area} = \frac{l}{12}\ (2a + 1{\cdot}5b + 4c + 1{\cdot}5d + 2e).$$

l denotes the *length* in feet from the intersection of the outside of the planking with the stem to the corresponding point at the stern post.

a, b, c, d, e denote the *horizontal breadths* in feet outside the planking at the points obtained by diving l into four equal parts and sub-dividing the foremost and aftermost parts into two equal parts (a and e being the breadths at the extreme subdivisions, c at the middle point of the length, and b and d at the intermediate points).

Size of boats.

15. No boat carried in compliance with these rules shall have a capacity of less than 125 cubic feet.

Weight of persons.

16. In the tests prescribed by these rules for determining the number of persons which a boat can accommodate each person shall be assumed to be an adult person wearing a lifejacket.

In verifications of freeboard the pontoon boats shall be loaded with a weight of at least 135 lbs. for each adult person that the pontoon boat is authorised to carry.

Appliances for lowering boats.

17. (1) The davits shall be of approved form and shall be suitably placed to the satisfaction of the local Government. They shall be fitted on one or more of the decks in such positions that the boats can be efficiently lowered from them, and shall be so spaced and placed that the boats can be swung out with facility. Davits shall not be fitted in the bows of a ship, but they may be fitted in any other position in the ship, provided that the boats are not brought into dangerous proximity to a propeller at the time of launching.

(2) The davits, falls, blocks, and all other gear required for lowering the boats, shall be of sufficient strength to the satisfaction of the local Government. In the case of ships launched on or after the 1st January 1927, they shall be of such strength that the boats can be lowered safely with the full complement of persons and equipment, the ship being assumed to have a list of 15 degrees.

(3) In the case of ships launched on or after the 1st January 1927, the davits shall be fitted with gear of sufficient power to ensure that the boats can be turned out against the maximum list under which the lowering of the boats is possible, or the davits shall be of the quadrant or other such type as will ensure the above condition being fulfilled.

(4) The boat's falls shall be long enough to lower the boat into the water with safety when the vessel is light. Life-lines shall be fitted to the davit spans, and shall be long enough to reach the water when the vessel is light. Hooks shall not be attached to the lower tackle blocks.

(5) Means shall be provided for speedily, but not necessarily simultaneously or automatically, detaching the boats from the falls; the boats placed under davits shall be attached to the falls and kept ready for service; the points of attachment of the boats to the falls shall be sufficiently away from the ends of the boats to ensure their being easily swung clear of the davits; the boats' chocks shall be of such construction and arrangement as shall be satisfactory to the local Government.

(6) Where more boats than one are served by the same set of davits, arrangements shall be made to prevent the falls fouling when they are recovered and, where more than two boats are served by the same set of davits, there shall be provided an approved appliance for lowering the boats in turn and rapidly.

(7) The local Government may accept in lieu of davits or sets of davits any other appliance, appliances, or arrangements, which appear to them at least as effective as davits for placing the boats in the water.

Buoyant Apparatus.

18. Approved buoyant apparatus, whether buoyant deck seats, buoyant deck chairs or other buoyant apparatus, shall be deemed sufficient, so far as buoyancy is concerned, for a person or number of persons to be ascertained by dividing the number of pounds of iron which it is capable of supporting in fresh water by 32, and if the apparatus depends for its buoyancy on air shall not require to be inflated before use.

Such approved buoyant apparatus shall comp y with the following conditions:—

(1) It shall be of approved material and construction.

(2) It shall be reversible.

(3) It shall be of such size, strength and weight that it can be handled without mechanical appliances and, if necessary, can be thrown from the vessel's deck on which it is stowed.

(4) The air-cases or equivalent buoyancy shall be placed as near as possible to the sides of the apparatus.

(5) It shall be marked in such a way as plainly to indicate that it is buoyant and the number of persons for which it is approved.

Stowage of Boats, Rafts, etc

19. (1) All boats attached to davits and all boats stowed under boats attached to davits shall be stowed in such a way that—

(a) They can be launched in the shortest possible time;

(b) They will not impede in any way the prompt handling of any other of the lifeboats attached to davits or stowed under boats attached to davits or the buoyant apparatus carried under rule 4 or the marshalling of the persons on board at the launching stations, or their embarkation;

(c) Even under conditions of list and trim unfavourable from the point of view of the handling of the boats as large a number of persons as possible can be embarked in them;

(d) Except as hereinafter provided, they shall be so stowed as not to require lifting before being launched.

(2) With regard to the stowage of other additional lifeboats and buoyant apparatus the following provisions shall apply:—

(a) They shall not impede in any way the prompt handling of the lifeboats attached to davits or the additional boats stowed under boats attached to davits or the buoyant apparatus or the marshalling of the persons on board at the launching stations or their embarkation;

(b) The lifeboats may be stowed one above the other or they may, subject to such conditions as the local Government may impose, be fitted one within another, but where boats so fitted require lifting before being launched, they shall only be permitted if attached to davits operated by mechanical power appliances;

(c) The lifeboats may be stowed in rows across a deck, bridge or poop;

(d) As large a number of the boats as possible shall be capable of being launched on either side of the ship, either by means of approved appliances for transferring them from one side of the deck to the other, or by stowing in rows across the deck, or by some other equally satisfactory means;

(e) Means shall be provided to the satisfaction of the local Government for lowering the lifeboats into the water in the shortest possible time.

(3) Where a boat is stowed underneath another boat there shall be provided approved removable supports or other approved appliances, so as to secure that the weight of a boat is not unduly supported by the boat underneath it.

(4) Boats may only be stowed on more than one deck on condition that proper measures are taken to prevent the boats from a lower deck being fouled by those from a deck above.

(5) All buoyant apparatus shall be so stowed as to be readily available in case of emergency.

Equipment for boats and buoyant apparatus.

20. (1) Every boat which is carried by any ship shall be equipped as follows :—

(a) With the full single banked complement of oars and two spare oars, and a steering oar.
(b) With two plugs for each plug hole, attached with lanyards or chains, and one set and a half of thole pins or crutches, attached to the boat by sound lanyards. Plugs shall not be required where proper automatic valves are fitted.
(c) With a sea anchor, a bailer, a galvanised iron bucket, a rudder and a tiller, or yoke and yoke lines, a painter of sufficient length, and a boat-hook. The rudder, the bailer, and the bucket shall be attached to the boat by sufficiently long lanyards, and kept ready for use.
(d) With a vessel capable of holding one quart for each person that the boat is deemed fit to carry. This vessel shall be kept filled with fresh water, and provided with a dipper with lanyard.
(e) With two hatchets, one to be kept in each end of the boat, and to be attached to the boat by a lanyard.
(f) With a line securely becketted round the outside of the boat.
(g) With an efficient lantern trimmed, with oil in its receiver sufficient to burn eight hours ; or with some other lantern or light at least as effective approved by the local Government.

(2) In addition to the equipment prescribed in sub-rule (1), the boats shall be equipped as follows :—

(a) With a mast or masts, and with at least one good sail and proper gear for each ; but this does not apply to an approved motor boat.
(b) With an efficient compass.
(c) With an air-tight case containing two pounds of biscuits for each person for whom the boat is approved.
(d) With one gallon of vegetable or animal oil, and a vessel of approved pattern for distributing it on the water in rough weather. This vessel shall be capable of being attached to the sea anchor.
(e) With one dozen self-igniting red lights in a water-tight tin, and a box of suitable matches in a water-tight tin.
(f) With 1 lb. of condensed milk for each person the boat is certified to carry.

(3) All buoyant apparatus carried by a pilgrim ship shall be equipped as follows :—

(a) With two paddles and one boathook or two paddles and boathooks combined attached to the buoyant apparatus by lanyards.
(b) A painter of sufficient length.
(c) A line securely becketted round the outside of the apparatus.
(d) A self-igniting light and two signal flares of approved pattern, the self-igniting light to be attached to the buoyant apparatus by lanyards of suitable length ;

Provided that on buoyant apparatus designed to support less than twenty-five persons the paddles, boathook and flares need not be carried.

(4) All boats and buoyant apparatus shall be fully equipped before the ship leaves harbour and the equipment shall remain in the boat or buoyant apparatus throughout the voyage, while the ship is at sea or shall be stowed in some convenient place where it will be immediately available in case of emergency.

Side Ladders.

21. In all ships, approved rope ladders shall be carried in proportion to the number of davits fitted, namely, not less than one ladder for each two sets of davits, provided that no ship shall be required to carry more than 10 ladders. The ladders shall be of sufficient length to reach the waterline at the vessel's lightest sea-going draught and shall be carried in such a manner as to be always available for use in embarking the persons in the boats or rafts.

Illumination.

22. On all pilgrim ships in which the boat deck is more than 30 feet above the water provision shall be made for the illumination from the ship of the lifeboats when alongside and in process of or immediately after being launched.

Lifejackets.

23. An approved lifejacket shall mean a jacket of approved material and construction which is capable of floating in fresh water for 24 hours with 15 lbs. of iron suspended from it, or any other approved appliance of equal buoyancy and capable of being fitted on the body. It shall be reversible and suitable both for adults and children. Lifejackets the buoyancy of which depends on air compartments are prohibited.

Lifebuoys.

24. (1) (a) An approved lifebuoy shall be of solid cork or other equivalent material. It shall be capable of floating in fresh water for at least 24 hours with 32 lbs. of iron suspended from it.

(b) Lifebuoys filled with rushes, cork shavings, granulated cork or any other loose granulated material, whose buoyancy depends upon air compartments requiring inflation, are prohibited.

(2) All lifebuoys shall be fitted with buckets securely seized, and at least one on each side of the ship shall be fitted with a life-line at least 15 fathoms in length.

Position of Lifebuoys and Life-jackets.

25. All lifebuoys and life jackets shall be suitably placed to the satisfaction of the Government Surveyor and so as to be readily accessible to all persons on board; and their position shall be plainly indicated so that it may be known to those for whom they are intended.

Lifebuoys shall always be capable of being rapidly cast loose and shall not be rigidly secured in any way.

Life jackets may be stored either in battens over the passenger decks or in boxes under the charge of serangs as well as in the buoyant seats when these are used. The contents of the boxes shall be clearly painted on them and illustrated notices in the vernacular shall be posted up in different parts of the ship explaining to passengers where to find life jackets and how to use them. In addition, their use shall be demonstrated by the crew both during boat drills and periodically at other times.

Exemptions.

26. (1) Any boat which forms part of the equipment of a ship that was launched before the 1st January 1927, and which has been inspected and approved by the local Government before that date may be accepted as equivalent to a lifeboat for a period of two years from that date, so long as it remains in good condition.

(2) Boats which were ordered before the date of the promulgation of these rules in order to complete the equipment of a ship, but which were not delivered in time to be inspected by the local Government before that date, may be accepted as equivalent to lifeboats for a period of two years from that date, so long as they remain in good condition:

Provided that such boats shall not be so accepted unless—

(a) they have been inspected where this has not already been done;
(b) they would have complied with the requirements of the rules in force prior to the promulgation of these rules.

27. (1) If it appears to the Government Surveyor on the application of the owner of any ship, that it is not practicable or reasonable to fit in that ship the number of sets of davits required by these rules, he may direct that one or more sets of davits may be dispensed with in that ship subject to such conditions, if any, as he may require:

Provided that the number of davits fitted shall not be less than the minimum number of open boats of the first class except in the following case:—

When a ship has been granted a passenger certificate previous to the introduction of these rules, the minimum number of sets of davits may, if the ship is between 245 feet and 460 feet in length, be one less, and if the ship is 460 feet or more in length, two less (one on each side of the ship) than the minimum number of open boats specified in column B of the Table in the Appendix to these rules;

Provided further that the owner of the ship in question shall be required to prove, by a test made in the presence of a Government Surveyor, that all the boats can be launched in a time to be fixed by him. The conditions of this test shall be as follows:—

(a) the ship shall be upright and in smooth water;
(b) the time shall be the time required from the beginning of the removal of the boat covers, or any other operation necessary to prepare the boats for lowering, until the last boat or pontoon raft is afloat;
(c) the number of men employed in the whole operation shall not exceed the total number of boat hands that will be carried on the vessel under normal service conditions;
(d) each boat, when being lowered, shall have on board at least two men, and its full equipment as required by these rules.

(2) If it appears to the local Government, on the application of the owner of any ship, that it is not practicable or reasonable in a particular case to require that pontoon lifeboats, made before the date of the promulgation of these rules and carried on ships of which the keel was laid on or before that date, shall have the minimum freeboard specified in these rules or the bottom and deck and made in two thicknesses with textile material between, the local Government may in their discretion dispense with full compliance with the rules in these respects until two years from that date, subject to such conditions, if any, as the local Government may impose.

(3) If a small ship is unable to carry more than one boat, the local Government may in their discretion exempt that ship from carrying more than one, but whenever one boat only is carried there shall be proper provision to enable it to be placed readily in the water on either side of the ship.

(4) If it appears to the Government Surveyor that it is impracticable to carry the number of boats required by these rules, the possible number (in the absence of large structural alterations) shall be found by measurement, after taking into consideration the practicability of launching these boats in rough weather.

Manning of lifeboats, etc.

28. Boat's crews shall be carried in all ships to which these rules apply on the following scale, namely:—

28 feet boats over and under this length	1 officer or petty officer and 4 men.
25 feet boats over and under 28 feet ...	1 officer or petty officer and 3 men.
20 feet boats over and under 25 feet ...	1 officer or petty officer and 2 men.
Under 20 feet	2 men.

29. From a date to be notified by the Governor-General in Council, each lifeboat shall be in charge of a minimum number of lifeboatmen holding certificates issued under the authority of the local Government concerned. In order to obtain the certificates, the men must prove that they have been trained in all the operations connected with the launching of lifeboats and the use of oars: that they are acquainted with the practical handling of the boats themselves; and further that they are capable of understanding and answering the orders relative to lifeboat service.

Lifeboatmen.

30. A man capable of working the motor shall be assigned to each motor-boat. The allocation of certificated lifeboatmen to each boat and raft shall remain within the discretion of the master according to circumstances. The officer or petty officer placed in charge of each boat or set of rafts shall have a list of its crew and shall see that men placed under his orders are acquainted with their several duties and stations. The duty of seeing that the boats, pontoon-rafts and other life-saving appliances are at all times ready for use shall be assigned to one or more officers.

Motormen.

31. The muster list shall assign duties to the different members of the crew in connection with—

Musters and drills.

(*a*) the launching of the boats attached to davits;
(*b*) the preparation of the other boats:
(*c*) the equipment of the boats generally;
(*d*) the closing of the bulkhead doors, etc.;
(*e*) the mustering of the passengers.

It shall also assign to the members of the Steward's Department their several duties in relation to the passengers at a time of emergency. These duties shall include—

(*a*) warning the passengers;
(*b*) seeing that they are dressed and have put on their life-jackets in a proper manner;
(*c*) assembling the passengers;
(*d*) keeping order in the passages and on the stairways and generally controlling the movements of the passengers.

32. The muster-list shall specify definite alarm signals for calling all the crew to their boat and fire stations and shall give full particulars of these signals. Before the vessel sails the master shall draw up and exhibit the muster-list and the proper authority shall be satisfied that the muster-list has been prepared for the ship and posted in several parts of the ship and in particular in the crew's quarters.

Muster-list.

33. (1) In all ships to which these rules apply, a boat drill and a water-tight door drill shall be held as soon as possible after leaving the original port of departure and at convenient intervals of not less than a week during the voyage. Such drills shall be recorded in the official log.

Drill.

(2) The Government Surveyor shall be satisfied, in each case before the ship leaves port, that a return has been devised and communicated to each officer of the ship for securing an efficient working of the boats. In all cases a police system shall be organised to the satisfaction of the Government Surveyor so as to secure obedience to orders and proper control and guidance of all on board in times of emergency.

(3) In carrying out the boat and water-tight door drills the crew will, when practicable, drill in their life-jackets and arrangements shall be made, when possible, for passengers to see the crew putting their life-jackets on. Entries in the official log shall state whether and when this has been done.

34. In all ships which are required under these rules to carry two or more boats, an emergency boat shall be carried slung out and ready for action every night.

Emergency boat.

35. Special boat decks shall be kept entirely clear of pilgrims, and in the case of bridge-decks and poop-decks, which are utilized for carrying pilgrims as well as boats and rafts, a space sufficient for the working of the boats and rafts shall be railed off.

Boat-decks.

36. (*1*) No boats, or buoyant-seats the whole of which cannot be efficiently put into the water in one hour, shall be deemed to form part of the equipment required in these respects for any vessel.

Time allowed for launching

(*2*) The equipment of boats, and buoyant seats of any vessels shall not be passed by the Government Surveyor as satisfying these rules unless the whole of it can be efficiently placed in the water in one hour.

Bills introduced in the Council of State and Legislative Assembly, Reports of Select Committees presented to the Council and Assembly and Bills published under Rule 18 of the Indian Legislative Rules.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 3rd February 1926 :—

NO. 10 OF 1926.

A Bill further to amend the Indian Income-tax Act, 1922 for certain purposes.

WHEREAS it is expedient further to amend the Indian Income-tax Act, 1922, for the purposes hereinafter appearing; It is hereby enacted as follows :— XI of 1922.

Short title and commencement.

1. (1) This Act may be called the Indian Income-tax (Amendment) Act, 1926.

(2) It shall come into force on the 1st day of April 1926.

Insertion of new section 19A in Act XI of 1922.

2. After section 19 of the Indian Income-tax Act, 1922 (hereinafter referred to as the said Act), the following section shall be inserted, namely :— XI of 1922.

Supply of information regarding dividends.

"19A. The principal officer of every company shall, on or before the 15th day of June in each year, furnish to the prescribed officer a return in the prescribed form and verified in the prescribed manner of the names and, so far as they are known to him, the addresses of the shareholders to whom a dividend or aggregate dividends exceeding such amount as may be prescribed in this behalf has or have been distributed during the preceding year and of the amount so distributed to each such shareholder."

Amendment of section 51, Act XI of 1922.

3. In clause (*c*) of section 51 of the said Act, after the words "mentioned in" the word and figures "section 19A" shall be inserted.

Amendment of section 52, Act XI of 1922.

4. In section 52 of the said Act, after the words "mentioned in" the words and figures "section 19A or" shall be inserted.

Amendment of section 57, Act XI of 1922.

5. (*1*) In sub-section (*1*) of section 57 of the said Act, for the word "assessee" the word "person" shall be substituted.

(*2*) For sub-section (*2*) of the same section the following sub-sections shall be substituted, namely:—

(*2*) Where the Income-tax Officer has reason to believe that any person, who is a shareholder in a company, is resident out of British India and that the total income of such person will in any year exceed the maximum amount which is not chargeable to super-tax under the law for the time being in force, he may, by order in writing, require the principal officer of the company to deduct at the time of payment of any dividend from the company to the shareholder in that year super-tax at such rate as the Income-tax Officer may determine as being the rate applicable in respect of the income of the shareholder in that year.

(*3*) If in any year the amount of any dividend or the aggregate amount of any dividends paid to any shareholder by a company (together with the amount of any income-tax payable by the company in respect thereof) exceeds the maximum amount of the total income of a person which is not chargeable to super-tax under the law for the time being in force, and the principal officer of the company has not reason to believe that the shareholder is resident in British India, and no order under sub-section (*2*) has been received in respect of such shareholder by the principal officer from the Income-tax Officer, the principal officer shall at the time of payment deduct super-tax on the amount of such excess at the rate which would be applicable under the law for the time being in force if the amount of such dividend or dividends (together with the amount of such income-tax as aforesaid) constituted the whole total income of the shareholder."

(*3*) Sub-section (*3*) of the same section shall be re-numbered as sub-section (*4*), and in that sub-section for the words "an assessee" the words "another person" and for the word "assessee", where it occurs for the second time, the word "person" shall be substituted.

Amendment of section 58, Act XI of 1922

6. To sub-section (*1*) of section 58 of the said Act the following proviso shall be added, namely:—

"Provided that sub-sections (*4*) to (*9*) of section 18 shall apply, so far as may be, to the assessment, collection and recovery of super-tax under sub-section (*2*) or sub-section (*3*) of section 57."

Amendment of section 66, Act XI of 1922.

7. To section 66 of the said Act the following sub-section shall be added, namely:—

"(*8*) For the purposes of this section "the High Court" means—

(*a*) in relation to the North-West Frontier Province and British Baluchistan, the High Court of Judicature at Lahore;

(*b*) in relation to the province of Ajmer-Merwara, the High Court of Judicature at Allahabad; and

(*c*) in relation to the province of Coorg, the High Court of Judicature at Madras."

Insertion of new section 66A in Act XI of 1922.

8. After section 66 of the said Act the following section shall be inserted, namely :—

Reference to be heard by Benches of High Courts, and appeal to lie in certain cases to Privy Council.

"66A. (1) When any case has been referred to the High Court under section 66, it shall be heard by a Bench of not less than two Judges of the High Court and in respect of such case the provisions of section 98 of the Code of Civil Procedure, 1908, shall apply notwithstanding anything contained in the Letters Patent of any High Court established by Letters Patent or in any other law for the time being in force. V of 1908.

(2) An appeal shall lie to His Majesty in Council from any judgment of the High Court delivered on a reference made under section 66 in any case in which the High Court certifies that the reference involves some substantial question of law.

(3) Nothing in this section shall be deemed—

(a) to bar the full and unqualified exercise of His Majesty's pleasure in receiving or rejecting appeals to His Majesty in Council, or otherwise howsoever, or

(b) to interfere with any rules made by the Judicial Committee of the Privy Council, and for the time being in force, for the presentation of appeals to His Majesty in Council, or their conduct before the said Judicial Committee."

STATEMENT OF OBJECTS AND REASONS.

The objects of the Bill are as follows :—

(1) It is intended to render section 57 (2) of the Indian Income-tax Act, 1922 (XI of 1922), effective for the objects that the Legislature originally intended to secure by its enactment. The sub-section is question runs as follows :—

"Where any assessee who is liable to pay super-tax on the amount of the dividends receivable by him from any company is, to the knowledge of the principal officer of the company, residing out of British India, the principal officer shall be liable to pay the super-tax due by such non-resident person in respect of the dividends received by him from the company, and shall have power to deduct the amount of such super-tax from the amount payable by the company to such assessee."

The intention of the sub-section is plain. It was framed to enable super-tax to be collected by deduction at source from the dividends payable to a non-resident shareholder. It has been found, however, that owing to technical defects in the drafting of the sub-section, the latter, as it stands, is of doubtful value. This is partly due to the use of the phrase "any assessee who is liable to pay super-tax". The sub-section contemplates deduction from the dividends at the time of payment, but the "liability" to super-tax does not arise until the following year, since super-tax, like income-tax, is charged on the income of the previous year. Further, an "assessee" is defined in section 2 (2) as "a person by whom income-tax is payable". "Income-tax" in this section includes super-tax [section 58 (1)], but it seems doubtful whether income-tax on super-tax can be said to be "payable" by a person who has not been formally assessed to income-tax or super-tax. Nor is it clear how super-tax can be "due" from a person who has not been assessed to super-tax. The Bill, therefore, provides for the amendment of the sub-section so as to make it plain that, without any formal assessment proceedings, the principal officer of a company is empowered to deduct super-tax from dividends declared to a non-resident when the amount of such dividends declared in a single fiscal year to the said non-resident (whether on one occasion or on more occasions than one) reaches the minimum amount liable to super-tax. The super-tax is in this case to be deducted at the rate applicable to the dividends on the assumption that the payee has no other income.

(2) The second object which the Bill is intended to secure is to obviate the anomalous results to which the existing sub-section (2) of section 57 gives rise, owing to the fact that the principal officer of a company can only deduct super-tax from a dividend paid to a non-resident, if the dividend itself exceeds the minimum liable to super-tax and even then can only deduct super-tax on the assumption that the dividend constitutes the whole of the shareholder's income. This may give a non-resident shareholder an unfair advantage

over a resident with precisely the same income. For example, if a non-resident shareholder draws a dividend of Rs. 40,000 from one company and a dividend of Rs. 60,000 from another company, super-tax will only be deducted on Rs. 10,000 by the principal officer of the second company, whereas, if the shareholder were a resident, he would have to pay super-tax on Rs. 50,000. Here clearly he has an unfair advantage over the resident shareholder. The existing sub-section may also operate unfairly as between two non-residents, for example, if one non-resident draws a dividend of Rs. 30,000 from one company and a dividend of Rs. 40,000 from another, no super-tax will be deducted, whereas if another non-resident shareholder draws a dividend of Rs. 70,000 from a single company, super-tax will be deducted on Rs. 20,000. In order, therefore, to render it possible, to some extent, for the income of non-residents derived from dividends in different companies and from other sources to be combined and taxed at the proper rate, so as to put them, as far as possible, on the same footing, in this respect, as residents, the Bill further provides that the principal officer of every company shall be required to notify to the Department annually all dividends paid to shareholders in excess of a sum to be prescribed by rule. This obligation is not restricted to dividends paid to non-residents, since such information will also be of great use to the Government for the purpose of preventing evasion of super-tax and income-tax by failure on the part of residents to include dividends in their returns. The amount of the individual dividend to which this provision should apply has been left to be fixed by rule in order that a convenient figure may be prescribed in the light of experience.

(3) In the case of the non-resident, the only method of realising the super-tax on dividends is ordinarily by deduction at source. The Bill, therefore, further provides that where the income-tax officer has reason to believe, as a result of the receipt of the information just mentioned from principal officers of companies, or otherwise, that the total income of a non-resident will reach the super-taxable limit, he may communicate to the principal officers of companies in which the non-resident holds shares, the estimated rate of super-tax appropriate to the total income of the non-resident, whereupon the principal officers in question will be required to deduct super-tax from any dividends paid to the non-resident at such rate. Such deductions will be subject to subsequent adjustment as stated below.

(4) It is further proposed to amend section 51 of the Act so as to make it an offence for the principal officer of a company to fail to furnish the return of shareholders to whom he has paid dividends in excess of the prescribed limits and to amend section 52; similarly, to make it an offence for the principal officer of the company to make a false statement in such a return.

(5) In sections 57 (*1*) and 57 (*3*) [to be renumbered as sub-section (*4*)], which relate, respectively, to the liability of resident members of a registered firm to pay the super-tax chargeable on the share of the profits of the firm due to a non-resident member, and to payment of super-tax on account of non-residents under the provisions of section 57, it is proposed to substitute the word "person" for the word "assessee" owing to the difficulties created by the use of the latter word which have been mentioned above.

(6) Finally, by clause 6, it is proposed to make the provisions of section 18, sub-sections (*4*) to (*9*) apply to super-tax recovered under sub-section (*2*) or sub-section (*3*) of section 57, so that—

(*a*) credit will be allowed for tax deducted under section 57 when any assessment is made on the shareholder's income in the following year (consequently any excess collection will be adjusted as already mentioned);

(*b*) the person deducting super-tax shall be bound to pay it within the prescribed time into the Government Treasury;

(*c*) a person who makes a default in the deduction of super-tax under section 57 shall be liable for the tax;

(*d*) the power to recover by deduction under section 57 shall not bar other methods of recovery; and

(*e*) every person deducting super-tax under section 57 shall be bound to furnish to the shareholder on whose behalf the tax has been deducted a certificate giving the particulars of such deduction.

(7) The Bill also contains provisions designed to overcome the difficulty that has been experienced, both by Government and by the public, owing to the fact that, short of legislation, there is no means of securing uniformity in the administration of the law in different provinces, where different High Courts have expressed different opinions under section 66 in regard to the interpretation of questions of law referred to them. The Bill, therefore, provides that references under section 66 of the Indian Income-tax Act, 1922, should be heard by a Bench of not less than two Judges; that where such Judges disagree the case should be referred to a third Judge whose opinion should prevail, and that from a decision of a High Court under section 66 an appeal should lie to the Privy Council.

GOVERNMENT OF INDIA.

LEGISLATIVE DEPARTMENT.

The following Bill was introduced in the Legislative Assembly on the 1st February, 1926 :—

No. 8 OF 1926.

A Bill further to amend the Code of Criminal Procedure, 1898, for a certain purpose.

WHEREAS it is expedient further to amend the Code of Criminal Procedure, 1898, for the purpose hereinafter appearing ; It is hereby enacted as follows :— V of 1898.

Short title.

1. This Act may be called the Code of Criminal Procedure (Second Amendment) Act, 1926.

Amendment of section 123, Act V of 1898.

2. In sub-section (6) of section 123 of the Code of Criminal Procedure, 1898, the words and figures "or section 109" shall be omitted, and before the word and figures "section 110" the words and figures "section 109 or" shall be inserted. V of 1898

STATEMENT OF OBJECTS AND REASONS.

Prior to the amendment of section 123 of the Code of Criminal Procedure, 1898, by section 21 (2) of Act XVIII of 1923, Courts had discretion to award either simple or rigorous imprisonment in the case of proceedings under section 109. The effect of the amendment was to take away the discretion, and this Bill restores it. Several Local Governments have represented that the change has worked injuriously, as most of the persons against whom proceedings are taken under section 109 are men for whom sentences of simple imprisonment are quite unsuitable. The Jails authorities also have in their administrative reports brought this point prominently to notice. This provision was inserted in the Code of Criminal Procedure (Amendment) Bill which was introduced on the 27th August 1925, but on the 14th September when the Bill was taken into consideration, the provision in question was omitted by the Assembly. The Government of India attach very great administrative importance to the provision, and they have some reason for believing that it was omitted from the Bill in September last largely owing to a misunderstanding as to the class of persons usually proceeded against under section 109. They have accordingly decided to place the proposal once more before the Indian Legislature as a single issue and so to enable its merits to be fully discussed.

S cond Forecast of the Spring Oilseed Crops of Bengal, 1925-26.

(NOTE.—On an average of the five years ending 1923-24, the area under linseed in Bengal has represented some 3·8 per cent., and that under rape and mustard 13·7 per cent. of the total area under these crops in British India.)

Character of the season.—As reported in the first forecast the weather was generally favourable at the outset. Uneven distribution of rainfall during the period of growth affected the crops. Damage by insect pests is reported from some important districts of North and East Bengal. On the whole, a fair crop is anticipated.

Area sown.—Oilseeds are chiefly grown in the Rajshahi, Dacca and Presidency Divisions. In the other two divisions the cultivation is small. The total area under these crops (excepting sesamum for which separate forecasts are issued) is returned at 898,100 acres this year as against 881,900 and 884,600 acres, respectively, in the corresponding and final forecasts of last year.

Outturn.—From the District Officers' estimates the provincial outturn of the different oilseed crops works out at 76 per cent. of the normal as against 73 and 75 per cent., respectively, in the corresponding and final forecasts of last year.

RESOLUTION ON THE ANNUAL IRRIGATION REVENUE REPORT FOR THE YEAR 1924-25.

GOVERNMENT OF BENGAL.

IRRIGATION DEPARTMENT.

CALCUTTA, THE 5TH MARCH 19_6.

RESOLUTION—No. 2/.

READ—

The Annual Irrigation Revenue Report for the year 1924-25.

THE year 1924-25 was marked by important changes in the constitution of the Irrigation Department. The Rajshahi subdivision, with headquarters at Rampur-Boalia, was opened for the purpose of taking over the irrigation works formerly in the Rajshahi Division of the Public Works Department and for supervising the work of training of the Ganges and keeping under observation the area which suffered during the floods of 1918 and 1922 in Northern Bengal. The Jangipur subdivision was closed, and the work south of the river was transferred to the Berhampore subdivision. For the efficient supervision of the investigations undertaken in the districts of Bankura, Birbhum, Burdwan and Murshidabad in connection with certain irrigation schemes, two subdivisions were formed, one in Bankura under the Cossye Division and the other in Birbhum (Suri) under the Damodar Division.

The capital expenditure of Rs. 1,16,982 during the year on the **Grand Trunk Canal** was principally incurred to meet payments on account of enhanced awards given by the special Land Acquisition Judge in certain reference cases in connection with the acquisition of land at the Baranagar end of the canal.

4. No capital expenditure was incurred during the year on the **Midnapore Canal,** which consists of two weirs at Midnapore and Panskura, 69·75 miles of main and branch canals used both for irrigation and navigation, and 284·97 miles of distributaries. The area irrigated during the year was 76,235 acres as against 72,412 acres in 1923-24 and an average of 79,121 acres for the triennium ending March 1924. The receipts and working expenses (direct and indirect) were Rs. 2,68,219 and Rs. 1,83,835, respectively, the result being a net revenue of Rs. 84,384 against a net revenue of Rs. 543 in the preceding year.

5. No capital expenditure was incurred on the **Hijili Tidal Canal,** which, with the Terapakhia pass khal, Palaboni khal and the khal leading to the Gewankhali Lock entrance, constitutes a navigation canal of 49¼ miles in length. The receipts and working expenses of the canal were Rs. 1,30,365 and Rs. 17,703, the result being a net revenue of Rs. 1,12,662 against Rs. 60,703 in the previous year. The increase is due to the enhancement of the rates of tolls.

•6. **The Calcutta and Eastern Canals** form a series of natural and artificial navigation channels extending for 834 miles for the purpose of maintaining communication between Calcutta and Eastern Bengal. With effect from the year 1924-25, the accounts of the Sunderbans Steamer Route, which were formerly included in those of the Calcutta and Eastern Canals, have been shown as a separate item in the accounts. The capital expenditure on the Calcutta and Eastern Canals was Rs. (–) 39,291. This is inclusive of a credit of Rs. 39,485 on account of the hire of the dredgers "Foyers" and "Alexandra" and other receipts. The receipts and working expenses amounted to Rs. 5,07,958 and Rs. 8,27,344, respectively, the result being a loss of Rs. 3,19,386, which is principally due to the reconstruction of bridges over the canals and the extensive repairs to the dredgers "Foyers" and "Alexandra", tugs and coal barges.

The Sunderbans Steamer Route has been treated as a separate project from the Calcutta and Eastern Canals as has been noted above. The receipts and working expenses of this route were Rs. 55,300 and Rs. 45,475 respectively, the result being a net revenue of Rs. 9,825.

7. **On the Madaripur Bheel Route** connecting the Madhumati and Kumar rivers in the Faridpur district, a capital expenditure of Rs. 4,41,484 (direct and indirect) was incurred mainly on dredging the Lower Kumar river from Takerhat to Charmaguria, a length of 13 miles. The receipts, which are derived for the most part from navigation tolls, totalled Rs. 3,44,752 against Rs. 2,67,656 in the previous year. The cost of maintenance of this route was Rs. 2,08,061 against Rs. 47,131 and the net revenue Rs. 1,36,691 against Rs. 2,20,525. The increase in receipts was due to increased traffic consequent on the dredging of the river and to some extent to higher rates of navigation tolls.

8. **The Orissa Coast Canal** in the Midnapore district is a canal for navigation only and lies partly in the Bengal Presidency and partly in the province of Bihar and Orissa. The receipts and working expenses for the portion within Bengal were, respectively, Rs. 37,087 and Rs. 15,123 against Rs. 22,602 and Rs. 19,814 in the previous year. The increase in recepts is principally due to higher tollage rates.

9 **The Nadia Rivers** having been thrown open to free navigation from 1st September 1923, there were no navigation receipts during the year. The maintenance charges amounted to Rs. 26,752 only against Rs. 60,614 of the previous year.

10. **The Gaighata and Baxi khal** is a short channel connecting the rivers Damodar and Rupnarayan in the Howrah district. This khal has been leased for a period of six years from the 15th June 1921 at a rental of Rs. 2,000 per year, on condition that the lessees do all silt-clearance at their own cost and maintain the khal to a stated bed-level, subject to the control of the Irrigation Department. The receipts during the year amounted to Rs. 1,500.

11. **The Eden Canal** in the district of Burdwan was originally constructed to supply water for drinking purposes; it is now used for irrigation also. The supply of water in the canal is uncertain owing to the absence of a weir in the river Damodar. This state of things will improve when the Damodar Canal project is carried out. The area irrigated from the canal was 21,010 acres against 20,321 acres in the preceding year. The receipts and working expenses were Rs. 35,226 and Rs. 34,112, respectively, against Rs. 28,467 and Rs. 46,[illegible]2 in the preceding year.

12. **Bidyadhari dredging.**—The Bidyadhari river is the principal outlet for the sewage and storm water of Calcutta; the river having deteriorated rapidly the dredger "Foyers" was employed in the year 1922-23 to clear it, the Calcutta Corporation contributing to the cost. The work was completed during the year at a total cost of Rs. 10,15,058. The Bidyadhari spill operations were also completed during the year at a cost of Rs. 6,61,936 against sanctioned estimate of Rs. 8,05,516, the expenditure during the year being Rs. 5,991.

13. **Training works.**—Training works in connection with the conservancy of the Ganges from Rajmahal to Goalundo continued to be carried out departmentally with the help of an experienced officer of the Steamer Companies. Training and bandalling works were also carried out in the Bhagirathi river. Bandalling works were done as usual in the Dhaleswari and Buriganga rivers and a sum of Rs. 17,302 was spent on the work.

14. **Drainage works.**—In the year under review the construction of the Amirabad drainage scheme in the district of Midnapore was suspended, and preliminary investigations for the drainage of the Gobra nala and Kalantar area in the district of Murshidabad were completed. The Arapanch drainage scheme in the 24-Parganas district was completed.

Projects for reviving the Bhairab and other rivers in the Nadia and Jessore districts and for the drainage of the Gangakhali-Soadighi and Dhunia-Barunda basins in the Midnapore district were under preparation.

15. **Irrigation in Western Bengal.**—The revised project for the **Damodar Canal** in the Burdwan district was under re-examination during the year; when carried out it will irrigate an area of 1,96,000 acres of land.

Surveys and investigations for small schemes in the districts of Bankura, Birbhum and Midnapore were in progress. Some of these schemes are to be carried out through the agency of Co-operative Societies, while others will be undertaken under the Agricultural and Sanitary Improvement Act, VI of 1920. The object of these works is to extend irrigation from the streams in Western Bengal, which is more liable to famine than other parts of the province.

16. **Hydro-electric survey.**—The report of the committee appointed to consider the measures to be taken to conduct and control the work of the hydro-electric survey in Bengal was published.

17. **General.**—The Irrigation Department in Bengal have to deal more with the improvement of navigation and sanitary conditions and control of flood water than with irrigation proper. For maintaining and developing the waterways suction dredgers are in use, the largest of which is intended for use in the proposed **Grand Trunk Canal,** which was held in abeyance during the year owing to financial stringency. The deterioration of the Sunderbans Steamer Route continues, and it is apparent that the construction of the Grand Trunk Canal is the only solution of the growing difficulty caused by the deterioration of this route, and the execution of the project is absolutely necessary to ensure a satisfactory navigable connection between Calcutta and Eastern Bengal and Assam for inland steam vessels.

ORDER—Ordered that a copy of the resolution be published in the *Calcutta Gazette* and a copy thereof and its accompaniments be submitted to the Government of India in the Department of Industries and Labour (Public Works Branch) and circulated to all departments and officers of this Government as usual.

By order of the Governor in Council,

C. ADDAMS WILLIAMS,

Secretary to the Government of Bengal.

Draft rules and schedule of rates of tolls.

1. Every vessel on entering the channel and before passing the gate at either end or even when entering the channel from a side khal between the gates shall be liable to measurement for the purpose of ascertaining the tolls payable. In case of any reasonable doubt arising, a vessel may be measured again by any person appointed by the District Board of Bakarganj, on this behalf.

2. Vessels for the purpose of the determination of maundage shall be divided into two classes as [illegible]:—

Class I.—To include all vessels of the types of country boats, including saltees and hapors (fish cages), house boats, kosh boats, green boats, etc.

Class II.—[illegible] include steam boats, motor boats, flats and barges and other square bui[illegible].

3. The ma[illegible]ge of every vessel, whether laden or empty, shall, for the purpose of Act V (B.C.) of 1864 and of these rules, be determined by the following measurements:—

CLASS I.

A. The p[illegible] quarter the length of the vessel from stem to stern, measured along the [illegible]e, multiplied by the interior greatest breadth of the vessel, multiplied by [illegible]th from the water-line to the interior bottom of the vessel, is to be taken as equal [illegible]ber of maunds upon which tolls shall be levied.

B. The [illegible]ment of the length is to be made in feet, rejecting inches; the measurement [illegible]th and depth is to be made in feet and quarters of a foot, rejecting any rem[illegible]han a quarter of a foot.

C. The [illegible] on which the amount of toll is calculated shall be reckoned to the nearest integral [illegible]ple of $12\frac{1}{2}$ maunds, any remainder of less than $12\frac{1}{2}$ maunds being rejected. In the [illegible] of vessels exceeding 500 maunds by measurement, the maundage shall be reckoned [illegible] the nearest integral multiple of 50 maunds, rejecting any remainder of less than 50 maunds.

D. **Saltees.** The product of one quarter of the inside length of the vessel, measured along the centre line from stem to stern, multiplied by the interior greatest breadth of the vessel, multiplied by the greatest depth measured from the top to the interior bottom of the vessel, is to be taken as equal to the number of maunds upon which tolls shall be levied.

CLASS II.

For vessels of Class II the number of maunds obtained by the system of measurement prescribed for vessels of class I shall be increased by one half. For vessels of this class above 5,000 maunds measurement, the maundage shall be reckoned to the nearest integral multiple of 500 maunds, rejecting remainder of less than 500 maunds. In the case of steamers and motor boats, the maundage determined as above shall be reduced by one-third as an allowance for engine space.

For vessels of class II which are furnished with reliable way bills, the gross maundage of cargo shown by the way bills or in the case of steamers, the maundage obtained from multiplying the registered tonnage of the steamer by 27, may, at the option of the employer of the vessel or the steamer (as the case may be), be taken as the maundage on which tolls will be charged.

4. After the measurement the person in charge of the vessel shall be provided with a slip showing the maundage to be charged, which must be presented at the toll office where he will be provided with a ticket, after payment of toll, which will permit the vessel to pass the gate or proceed through the channel.

5. Every ticket shall have entered on it the name of the sarang, manjee or other person in charge of the vessel, the date of entry, the maundage, the cargo, the amount of toll charged and the number of days for which the ticket remains current.

6. All tolls are payable on demand and shall be paid at the toll office before a vessel is permitted to proceed.

7. The ticket must be kept on board the vessel and in possession of the person in charge of the vessel and must be produced for inspection when demanded by the person authorised to collect tolls, or by any officer to whom such person is subordinate. If on demand the ticket is not produced, such person or officer shall assess the tollage as provided in rules 3 and 12 and shall require payment of toll, and unless and until the toll is paid, or the original ticket or a duplicate is produced as evidence that toll has already been paid, the vessel shall be liable to seizure and detention under the provisions of section 9 of the Act.

8. Duplicates of lost tickets, of which the numbers and dates can be satisfactorily established, will be granted by the collector of tolls on payment of a fee equal to one quarter of the total tollage, subject to a minimum fee of one anna per ticket.

9. All vessels, whether the property of Government, District Board, other local bodies or of private persons, are liable for toll except those specially exempted under these rules or by a resolution passed by the District Board of Bakarganj from time to time.

10 The canal may be closed once a year for effecting the necessary repairs to it on seven days' notice of the intention so to close it being given; but in the event of any sudden emergency the canal may be closed at any time without prior notice, and no claim in such case by owners of vessels or others for compensation on account of detention shall be entertained.

Tolls will be levied at Hulerhat and Perojpore.

13. For boats frequently using the canal such as boats carrying passengers, grass or perishable articles monthly tickets will be issued at 10 times the ordinary toll.

A vessel remaining in any part of the canal longer than three days shall be charged demurrage equal to one-half of the toll for each day in excess of three days. No vessel shall be permitted to remain in the canal for more than one month. Provided that this rule shall not apply to vessels holding monthly tickets under rule 13 above, which may remain in the canal for more than three days without payment of demurrage but not for more than one month at a time.

RESOLUTION ON THE REPORTS FROM THE COMMISSIONERS OF DIVISIONS ON TH[E] WORKING OF MUNICIPALITIES IN THE BENGAL PRESIDENCY (EXCEPT CALCUTT[A]) DURING THE YEAR 1924-25.

GOVERNMENT OF BENGAL.

Local Self-Government Department.

CALCUTTA, THE 5TH FEBRUARY, 1926

RESOLUTION No. 375M.

READ—

Reports from the Commissioners of Divisions on the working of municipalities in the Bengal Presidency (except Calcutta) during the year 1924-25.

1. **Number of Municipalities.**— Owing to the amalgamation of three suburban municipalities of Cossipu[r] Chitpore, Maniktola and Garden Rea[ch]

with the Corporation of Calcutta, the number of municipalities decreased to 115.

The figures for 1923-24 referred to in this resolution exclude those for the three suburban municipalities mentioned above.

2. **Elections.**—General elections were held in 61 municipalities and were hotly contested in the majority of cases. In Burdwan not only did the educated people take an active part in the contest but the carters of the town set up a candidate from their own community who was returned with the highest number of votes. There was, however, no poll in any of the wards of the South Suburban and Kumarkhali municipalities.

The percentage of attendance of voters in the elections was high in many cases: in the small town of Sherpur, in the district of Mymensingh about 80 per cent. of voters recorded their votes. The Commissioner of the Division, however, observes that this high percentage of voters is a proof rather of the keen rivalry existing between the two factions led by the local zemindars, which divide the town, than of any concern for municipal interests. The number of civil suits and objections filed by the aggrieved parties for setting aside the elections was higher than in the previous years. The most noticeable instance was that of the Dinajpur Municipality, where several suits were instituted of which some are still pending. In Basirhat, though dates for the general election were fixed twice, it could not be held owing to injunctions issued by the Civil Court. The election of the Dacca Municipality, which was held in March 1925, was followed by litigation and the issue of a temporary injunction. The new Board could not be formed until the 21st July 1925, after the order of the lower Court was reversed on appeal by the District Judge. The main suits are still pending. The issue of injunctions seriously hampers municipal administration and a more satisfactory and expeditious means of disposing of election disputes, such as the Bengal Municipal Bill provided, is much needed. The election of the Commissioners of the Chittagong Municipality, which was due in March 1925, could not be held owing to the declaration by the Court that the Assam Bengal Railway Co., Ltd., had been illegally excluded from the list of voters and that there should be another publication of the voter's list.

The elective system was sanctioned for the Gaibandha Municipality with effect from the next reconstitution.

3. **Meetings.**—Out of 2,517 meetings held during the year 338 either proved abortive or were adjourned. The failure was most marked in Murshidabad where eight out of 21 meetings were abortive and six adjourned. At Kotechandpur more than half, and at Jainagar nearly half, the number of meetings held was unsuccessful. Kalna held the largest number of meetings, *viz*., 52, but more than one-fourth of them either proved abortive or were adjourned. Garulia and Cox's Bazar are the only municipalities where the Commissioners failed to meet once a month. The average percentage of attendance was the highest at Taki (99·9) and the lowest at Murshidabad (32·3). The percentage was over 75 in 4 municipalities while it exceeded 50 in 88 others. The Commissioner of the Burdwan Division, however, observes that "the percentage of attendance is no index of the real amount of work done. Burdwan did better work than its percentage would indicate. High percentage of attendance often means nothing more than existence of bitter faction."

4. **Number of Rate-payers.**—The total number of rate-payers rose from 313,177 to 317,895. The percentage of rate-payers to total population was 15·7 against 15·5 of the preceding year. The ratio varied from 40·1 in Sherpur (Bogra) to 3·1 in Titagarh—a mill town with a large cooly population. Other towns in which rates are paid by less than one-tenth of the people are the hill stations of Darjeeling and Kurseong and the several riparian municipalities including Narayanganj. The low percentage at the latter place is due, as before, to the floating population of factory operatives living with their employers. There was an appreciable increase in the number of rate-payers in Bogra which is probably due to the general revision of assessment.

5. **Assessment and Taxation.**—The average incidence of taxation per head of population rose from Rs. 2-12-5 to Rs. 3-0-4. In this case also there are large variations, the incidence being above Rs. 5 in four municipalities, *viz.*, Howrah (Rs. 9-7-8), Darjeeling (Rs. 10-0-10), Kurseong (Rs. 8-6-10) and Chittagong (Rs. 5-9-8) while it is as low

as 6 annas in Debhatta, under 8 annas in Baduria and Bajitpur and under one rupee in 19 municipalities.

A general or partial revision of assessment was made in 49 municipalities, the net result being an increase of about Rs. 1¾ lakhs in the municipal demand of the Presidency as a whole. The largest increase was obtained in the municipality of Howrah (Rs. 58,974). Then come South Dum-Dum with an increase of Rs. 19,650, Rishra-Konnagar Rs. 13,939 and Kamarhati Rs. 10,038. These figures however represent the gross increases which are likely to be reduced on the hearing of appeals The rate of water-tax in Noakhali was raised to 5, 4 and 3 per cent. on the annual value of holdings within the radii of 440 feet, 880 feet and 1,320 feet, respectively, from any reservoir, and this resulted in an inincrease of Rs. 1,571 in the annual demand.

6. **Collections**.—The total collections for the Presidency as a whole rose from Rs. 54 lakhs to Rs. 59 lakhs, the percentage of collections on the current demand being 95·3. The collections were very satisfactory in 13 municipalities where the realization was either equal to or in excess of the current demand and in 14 others they were over 99 per cent. On the other hand, the ratio was under 80 per cent.—a deplorably low figure—in 8 towns, falling as low as 58·4 per cent. in South Dum-Dum and 46·6 per cent. in Sherpur (Mymensingh). The low percentage in South Dum-Dum is reported to be due mainly to non-payment of taxes by the Eastern Bengal Railway authorities. In Sherpur the collection was stopped owing to the declaration by the Civil Court that the assessment of 1922 was illegal and *ultra vires*. This was followed by an order of Government under section 111A of the Bengal Municipal Act requiring that the assessment should be revised by a paid Assessor. Pending such revision no collection could be made. As usual, the Garulia and Nalchiti municipalities collected cent per cent. of their demand without remission. Next comes the Titagarh Municipality with an improved collection of 99·6 per cent. of the demand, granting a remission of only 3 per cent. and leaving no outstanding balance. The small municipalities of Baruipur and Meherpur also showed good collections.

The amount of remissions for the province as a whole (Rs. 2,86,844) was practically the same as in the previous year and represented 4·6 per cent. of the current demand. The small municipalities of Muktagacha and Baraset remitted more than a quarter of their current demand while four others, *viz.*, Jamalpur, Jainagar, Tollygunge and Satkhira remitted more than 10 per cent. No explanation has been given for the high percentage of remissions in these municipalities. Large remissions indicate either careless assessment, or incapacity on the part of the collection staff; it is an unsatisfactory method of disposing of large outstanding balances.

In the Presidency as a whole the balances outstanding at the close of the year amounted to Rs. 13 lakhs. The Governor in Council regrets to observe that the accumulation of such heavy arrears reflects credit neither upon the Municipal Commissioners nor upon their executive. Howrah shows the largest balance outstanding, *viz.*, Rs. 4,23,812, for which no explanation has been given. Next comes Dacca with an outstanding balance of Rs. 2,48,584, which however was due to a well-organised agitation against the payment of taxes. A civil suit instituted to challenge the validity of the Dacca re-assessment has been decided in favour of the municipality, but in the meantime two years' arrears of taxes have accrued and it will be very difficult for the poorer rate-payers to pay up such large arrears. The Bengal Municipal Act unfortunately—unlike the Calcutta Municipal Act—does not permit the Commissioners to realize rates on the basis of the old assessment, when the re-assessment is contested. The new Municipal Bill provided for this very necessary amendment. Other municipalities which had unduly large balances outstanding were Mymensingh, Chittagong, Tollygunge, South Dum-Dum, Hooghly-Chinsurah, Bally and Barisal. The balance in Chittagong (Rs. 40,651) consists of Rs. 9,092 due on Government buildings (the correctness of the assessment being disputed) and Rs. 31,599 due by private individuals—the worst defaulters being some of the Municipal Commissioners themselves. It is reported that Rs. 10,000 have since been realized leaving a balance of Rs. 21,559. In the case of Tollyganj the heavy outstanding balance representing 42·7 per cent. of the current demand is reported to be due to non-payment of taxes by some

persons against whom civil suits have been filed. The reason for the heavy balance in South Dum-Dum has already been stated. The Chairman of the Bally Municipality reports that suits have been instituted for the realization of balances. In other cases no satisfactory explanations have been furnished but generally they are due to laxity in collections and the neglect of the municipal executive to enforce punctual payments, quarter by quarter, by means of a regular and impartial issue of warrants.

The Governor in Council would invite the attention of all Municipal Commissioners to the following remarks made by Mr. Twynam, Magistrate of Mymensingh :—

In practice, many municipalities rely on persuasion at the end of the financial year for the collection of taxes. Although frequently successful this method has one great defect. Under Account Rule 87 the notice of demand must be served not later than the 15th day of the second month of the quarter. After service of the notice the Commissioners may within 3 months issue a distress warrant. It, therefore, happens that most distress warrants are time-barred by the end of the year.

7. **Income and Expenditure.**—The total receipts including opening balances amounted to Rs. 1,06,03,381 against Rs. 99,91,595 in the year 1923-24. The total disbursements were Rs. 86,13,713 as against Rs. 83,74,917.

8. **Closing Balance.**—The total balance at the close of the year amounted to nearly Rs. 20 lakhs as against Rs. 16 lakhs in the preceding year. The largest balances were held by Dacca (Rs. 4,68,489), Howrah (Rs. 3,83,849) and Darjeeling (Rs. 1,59,600).

No explanations have been furnished for the large balances in Dacca and Howrah; in the latter case it includes probably the unspent balance of the loan of Rs. 2,50,000 taken in 1923-24 for the improvement of water-supply and in the former case, the grant made by Government towards the sewerage scheme. Of the balance in Darjeeling Rs. 38,000 represents the amount set apart for major replacements of alternators and turbines, etc. Comparatively large balances were held by the municipalities of Bhatpara, Naihati and Budge-Budge in order to carry out sanitary schemes and the general improvement of the town. On the other hand, a number of municipalities failed to keep adequate working balances and in several cases they were insufficient to meet outstanding liabilities. In the case of Serampore, Raniganj, Azimganj, Mymensingh, Faridpur, Barisal and Serajganj the outstanding liabilities largely exceeded the closing balances. The worst offenders in this respect were Baraset and Pirojpur, which had outstanding liabilities of Rs. 2,299 and Rs. 2,173, respectively, against actual balances of Rs. 322 and Rs. 335 only, and Hooghly-Chinsurah which closed the year with a sum of Rs. 10,681 in hand but with liabilities exceeding Rs. 32,000.

9. **Education.**—The amount spent on education including the Government grant of Rs. 80,480 was Rs. 2,94,321 as against Rs. 2,56,314 in the preceding year.

The expenditure on primary education also showed a corresponding increase of about Rs. 35,000 which is contributed by all the Divisions. Seventeen municipalities however, or roughly one in seven, failed to spend 3·2 per cent. of their ordinary income—the percentage which is taken to represent the amount required for the education of half the number of boys of primary school-going age. On the other hand, the ratio was over 5 per cent. in 49 municipalities, and over 10 per cent. in 14. The high percentage (14·3) in the case of Budge-Budge is due to an expenditure of Rs. 6,619 on the construction and equipment of a school building which forms part of Mr. Biss' primary education scheme.

Dacca and Midnapore have established three and five free primary schools, respectively, on the Biss model. Burdwan is also maintaining one school under this scheme which has also been accepted by the municipalities of Garulia and Kishoreganj. In the latter town, an education cess has been introduced and the school houses are being constructed. The Commissioners of the Chittagong Municipality have improved some of their existing primary schools, added to the number (35) a new upper primary school with 5 teachers on the lines of Mr. Biss' scheme. They have also drawn up a scheme of free primary education within the municipal limits. An education cess at the rate of 1·6 per cent. on the municipal valuation is levied at Rangpur and sanction to the levy of such cess at the rate of 1 per cent. has been applied for by the Commissioners

of the Berhampore Municipality. The Burdwan Municipality has made a free gift of some land for starting a middle school for girls for which Government will bear the recurring charges and the initial expenditure on school buildings.

10. **Water-Supply.**—As usual, Tollygunge and South Suburban were supplied with filtered water from the Calcutta mains while seven other municipalities got their supply from the local mill filters. Excluding these, there are at present 27 municipalities which have their own water-works. The number of persons supplied with filtered water was about nine lakhs and the total quantity supplied was about 10 million gallons per day. The water-works at Raniganj could not be completed owing to a sudden flood in the river which not only put a stop to the work but did much damage to the new well in the river bed. The operations in connection with the Comilla water-works, to which Government made a loan of Rs. 45,000, were almost completed during the year, but owing to shortage in gravity pipes water could not be supplied until September 1925. A water-supply scheme for the town of Suri was sanctioned at an estimated cost of Rs. 1,60,700 and boring operations were carried on under the supervision of the Public Health Department. An extension of the Bankura water-supply scheme was sanctioned by Government, but the work was not taken in hand as no decision was reached as there was a difference of opinion between the Commissioners and the Chief Engineer regarding the respective merits of cast-iron and steel pipes. A revised scheme for the improvement of water-supply to Kalna at an estimated cost of Rs. 130,000 was drawn up by the Chief Engineer, Public Health Department. The water-works scheme for the northern section of Chandpur was sanctioned at an estimated cost of Rs. 92,000 towards which Government promised a grant of Rs. 20,000 and a loan of Rs. 32,000. The filter of the Patuakhali water-works was repaired and a new engine supplied to the Patuakhali water-works at a cost of Rs. 2,500. The improvement of the Chittagong water-works, which was under the consideration of the municipal Commissioners, was considered unnecessary for the present, as the cleansing of tube wells and other machinery has resulted in an increase of the outturn. There was some extension of water pipes in Dacca and the total number of house connections rose from 1,611 to 1,655. The average daily consumption of water in Mymensingh has risen from 2,35,000 gallons in 1921 to 3½ lakh gallons. This excessive consumption coupled with absence of control and bad finance has landed the municipality in a serious *impasse*. The Governor in Council therefore accepts the suggestion of the District Magistrate that the Municipal Commissioners should thoroughly investigate the causes of the present excessive consumption and improve their financial position before embarking on any new scheme for the extension of water-works. The water-works of the Berhampore Municipality were in charge of the Public Health Department and Government advanced a loan of Rs. 10,000 for its improvement which could not be completed within the year.

The supply of water by tube wells having proved successful in certain soils and at the same time cheaper, several municipalities—especially in the Presidency Division—decided upon obtaining water through such wells. Baruipur, which already had 24 tube wells, sunk 4 more during the year. Halisahar sunk four such wells, South Dum-Dum three and Kanchrapara one. The latter municipality has also excavated two pucca wells and Budge-Budge a reserved tank. Tube wells were also provided by the municipalities of Tollygunge, South Suburban and Basirhat. In Rajshahi a pump and an engine were affixed to the tube well which was sunk at the cost of Government. English Bazar and Bogra received a grant of Rs. 11,000 and Rs. 19,000, respectively, from Government towards the cost of boring experimental tube wells.

11. **Conservancy and Drainage.**—Conservancy charges were about Rs. 3½ lakhs in excess of the receipts from latrine fees which were levied in all but 15 municipalities.

The revised estimate of the Bhatpara sewerage scheme has recently been submitted to Government. The work of the Titagarh sewerage scheme is being carried on under the direct supervision of the Public Health Department. It is, however, reported that the progress is very slow owing to delay over the land acquisition proceedings. The principal dumping depôts and public latrines necessary for the island area of the

Dacca sewerage (initial portion) were constructed and brought into operation during the year. It is reported that the wooden roofs of the septic tanks of the Kurseong sewerage have been replaced by ferro-concrete roofing and that the alteration to the detritus chamber has greatly improved its efficiency, the breeding of mosquitoes in the tanks having been entirely stopped. The supplementary drainage scheme of the English Bazar Municipality, which is estimated to cost Rs. 18,000, received the approval of the Public Health Department. In Budge-Budge the Chitragunge sluice project was completed and in Kanchrapara a big drain from Dangapara to Bagerkhal was constructed. A portion of the Grand Trunk Road side drain in the Rishra-Konnagar *bastee* was constructed and regraded.

Minor drainage works were also carried out in several other towns. These are generally confined to construction of, and repairs to, drains, culverts, etc.

12. **Public Health.**—Almost all the municipalities adopted measures for the improvement of sanitation by filling up, clearing or disinfecting insanitary tanks, ditches and *dobas* and by removing jungles and obnoxious vegetation. More than half of the area of the Champdany Municipality was cleared of jungle by the Angus Company and a great improvement was made in Ward III of the Bansberia Municipality by Messrs. McNeil & Co. by clearing jungle from a large area acquired by them. In Berhampore roadside jungle as well as jungle growing by the side of the embankment of the river Bhagirathi was cleared and in Kanchrapara some borrow-pits were filled up with sweepings from the railway workshop. In many municipalities notices under the Bengal Municipal Act were issued on private persons to remove jungle and tank vegetation, to cleanse tanks and fill up ditches. In the majority of cases such notices were obeyed without prosecution. Where they were disregarded the municipality had either to prosecute or to do the work itself recovering the cost thereafter from the owner. In Jessore alone more than 700 notices were served upon the owners of houses with jungle within their compounds and the notices were generally complied with. The power of a municipal authority to requisition improvements of this kind is of great importance and the measure of its use—in so far as the Municipal Commissioners are not obstructive—is a good index of the activity of the sanitary staff. The Governor in Council is glad to find the Jessore Municipality making a wide use of these powers.

Precautionary measures were taken by a large number of municipalities to check the spread of epidemics. Medicines and disinfectants were freely distributed and special doctors were appointed where necessary. Lectures on epidemics with magic lantern demonstrations were delivered at several towns for the purpose of educating the people in sanitation and public health. Leaflets for the prevention of small-pox were distributed and placards and posters were hung up in conspicuous places.

Free vaccination was provided by many municipalities and effective measures were taken to vaccinate and revaccinate children. Additional vaccinators were employed by several municipalities for this purpose. Some students of the Burdwan Medical School acted as honorary vaccinators. A severe epidemic of small-pox broke out at Bhatpara but the spread of the disease was checked by house-to-house vaccination, disinfection of the affected houses and burning of sulpher at convenient centres. Cholera broke out in several municipalities in the district of the 24-Parganas and elsewhere: the usual preventive measures (*e.g.*, chloriation of tanks and pools, disinfection of drains and infected rooms) were adopted with good results.

Malaria and kala-azar were prevalent in some municipalities. Arrangements were made by the Berhampore Municipality for the treatment of kala-azar patients in the local charitable hospital. Quinine and cinchona febrifuge were freely distributed by many municipalities.

It is reported that the local anti-malarial and kala-azar societies, where they exist, did useful work in co-operation with municipalities in combating these diseases. Kala-azar patients were treated free of charge by the Nimta Society in North Dum-Dum and the Bengal Young Men's Association in Baraset. In Jamalpur a committee was formed for the treatment of kala-azar patients with the Subdivisional Officer as President and the Municipal Chairman as Secretary. Arrangements were made for

a general survey of malaria in the town of Dinajpur, where one centre has already been opened in Ward V for the free treatment of kala-azar patients.

In Berhampore a baby show was held and maternity lectures were delivered by the local doctors, the publicity officer and others.

By-laws were framed by certain municipalities for the eradication of water-hyacinth and in Narayanganj and elsewhere effective measures were taken for clearing this pest from tanks.

In several municipalities food-stuffs offered for sale to the public were examined and unwholesome food-stuffs were in some cases either destroyed or removed from the bazar. In Dacca 240 samples of different kinds of foodstuffs were sent to the Public Health Laboratory for analysis of which 111 were found to be adulterated. Prosecutions were instituted in all these cases under the Bengal Food Adulteration Act and convictions were obtained in 87 cases. The efforts of the sanitary staff in this important but neglected branch of administration, deserve praise. Where the Health Officer as in Dacca is zealous and energetic, he will find ample work to do and in justifying his appointment he will be demonstrating to the Municipal Commissioners the range and scope of sanitary administration. A number of prosecutions under sections 6 and 10 of the Bengal Food Adulteration Act were also instituted in Bhatpara, Barnagore and Budge-Budge, all of which resulted in conviction. On the other hand, a prosecution instituted in the previous year failed in one town on the technical ground that it is the Municipal Commissioners and not the Chairman who can sanction prosecution under the Food Adulteration Act. As the Municipal Commissioners ordinarily meet monthly or even less often inconvenience is often caused by the necessity of obtaining their sanction to every prosecution. This inconvenience has since been removed by the passing of the Bengal Food Adulteration (Amendment) Act, V of 1925, by which the Chairman of municipalities have also been vested with power to authorize prosecutions.

13. **Public Works.**—The amount spent on public works rose from Rs. 10,28,484 to Rs. 11,39,602, the largest increase occurring under the head "Roads" which was contributed by all the Divisions. The percentage of outlay on public works to the total expenditure varied from ·2 in Bhola to 50·9 in Debhatta.

Municipalities in Bengal have for some time past made a grievance of the fact that although their roads are seriously damaged by the ever increasing motor traffic they are unable under the existing Bengal Municipal Act to impose taxation on motor vehicles in spite of the fact that in municipal areas the owners of all other kinds of vehicles are required to take out licenses on payment of fees. In the Bengal Municipal Bill, 1925, power was accordingly taken for municipalities to tax motor vehicles but the motion for the introduction of this Bill was rejected by the Bengal Legislative Council at the last December session. As the grievance is a genuine and long felt one, Government have prepared and hope shortly to introduce in the Legislative Council a small Bill authorizing municipalities and other local bodies to tax motor vehicles kept within their jurisdiction.

14. **Loans.**—Loans amounting to Rs. 1,25,000 were granted to four municipalities, *viz.*, Comilla (Rs. 45,000), Serampore (Rs. 60,000) Berhampore and Jessore (each Rs. 10,000). Altogether 40 municipalities were in debt to Government at the end of the year, their total liabilities amounting to nearly Rs. 35 lakhs.

15. **Audit of Accounts and Embezzlement.**—The accounts of almost all the municipalities were audited. Little attention is however paid by municipalities generally to remedy the defects and irregularities noticed in the audit reports. In this connection the Commissioner of the Burdwan Division observes:—

> As a matter of fact practically nothing is done. The same old errors occur year after year, the reason being of course that the mistake occurs because supervision is lax. That more money is not defalcated seems, to be more a matter of good luck than good management.

Embezzlement or misappropriation of municipal money occurred in Hooghly-Chinsurah, Baruipur, Halisahar, Kanchrapara and Dinajpur, but the amounts misappropriated were recovered and in the first two named municipalities the offenders were dismissed from service. In South Dum-Dum a suspected case of

temporary misappropriation by a collecting sarkar was reported in the audit note, but the matter is still under enquiry. The head clerk of the Noakhali Municipality was criminally prosecuted for misappropriating municipal money and sentenced to rigorous imprisonment of one month and to pay a fine of Rs. 200. The case of embezzlement detected during the previous year in Jamalpur was disposed of, the collecting sarkar having been sentenced to pay a fine of Rs. 200 and to suffer rigorous imprisonment for one day only.

There appears to be a tendency for embezzlement of municipal funds to occur more frequently than was formerly the case. Misappropriation of public money is a very grave offence, and where such offence appears to be established by the audit officer's investigation Government are of opinion that it is not sufficient for the Municipal Commissioners to punish the delinquent by dismissal or to rest satisfied with the refund of the amount which has been misappropriated. In the interests of public morality the offenders in cases, which appear to be capable of legal proof, should invariably be prosecuted criminally.

16. **General Remarks.** — *Burdwan Division.*—The Commissioner of the Burdwan Division on a general review of the working of the municipalities in his division observes that while there has been no advance there are signs of an awakening and a dissatisfaction with the bad management of the last few years. The Governor in Council endorses his view that a zealous regard for the public interest, manifesting itself in a careful supervision of both indoor and outdoor work is even more needed than more taxes, and this is called for from all concerned in the administration, from Chairman down to sub-overseer.

The improvement of water-works and construction of good pucca drains are the principal wants of Burdwan. Two oil engines are being erected for working the water-works pumps. In Kalna, kala-azar is reported to be gradually disappearing owing to the opening of hospitals in different parts of the subdivision for the treatment of the disease. If this view is well-founded, the results of the intensive work at Kalna are a happy augury for the anti-kala-azar campaign which Governmnet hope shortly to initiate in all affected areas. It is reported that there was also less malaria. The condition of the roads and the arrangement of street lighting in Katwa continued to be unsatisfactory. The Commissioners of the Asansol Municipality are now anxious to get water-works in the town, but they are confronted with financial difficulties. As regards the municipal administration in Bankura the District Magistrate remarks:—

> Party faction prevails. Proper attention was not paid to the repair and cleaning of roads, privies and drains. The lighting arrangements are not also satisfactory. Collections in Bankura and Vishnupur were bad. This state of affairs was mainly due to the want of supervision on the part of the municipal executive.

The Magistrate of Midnapore reports that the best managed municipalities in the district were Tamluk and Ghatal both of which now have Swarajist Chairmen. The administration of the Chandrakona Municipality was inefficient and was marred by faction and party spirit. The general administration of the Midnapore Municipality was unsatisfactory and there was much discontent among the rate-payers. The financial position of the municipality which had been most unsatisfactory, was somewhat relieved by Government relaxing the conditions for the payment of the arrear instalments of the water-works loan and by a generous gift of Rs. 50,000 from the District Board towards the completion of the water-works scheme. A marked feature of the administration of the Hooghly-Chinsurah Municipality was the constant and repeated complaints of the partial or total failure of water-supply. The financial position of the municipality has steadily deteriorated. At the close of the year there were unpaid bills amounting to Rs. 32,386 against a cash balance of Rs. 10,681. The Commissioner of the Division remarks that this unsatisfactory financial condition was due to the utter laxity of control that prevailed. In Serampore, the collections appear to have improved a little, but a great deal yet remains to be done. The state of roads in this town requires special attention. In Rishra-Konnagar there was much friction between the municipal authorities and the Mills and in Bally strained relations between Wards I and II on the one hand and Wards III and IV on the other, stood in the way of the efficient administration of the municipality.

Presidency Division.—Mr. Cassels, Magistrate of the 24-Parganas, writes as follows as to the working of the municipalities in his district:—

A few municipalities in the industrial area are efficiently managed, tackle their problems energetically and are alive to the needs of a town population. At the other end of the scale there are many more, not so advantageously placed, some of them rather resembling overgrown villages, where a sense of civic pride and responsibility is confined to a few, where faction is not unknown and where in the sphere of practical municipal work, the prevailing note is too often one of lassitude and *laissez faire*.

The activities which deserve notice are mainly those directed to improve public health. The Naihati and Bhatpara schemes for water-supply have been worked out in detail and have been submitted to the Sanitary Board. Kamarhati has a scheme in view while certain other municipalities made progress in the sinking of tube-wells. The Titagarh sewerage scheme is still making slow progress and a scheme has been prepared for Kamarhati. An epidemic of small-pox which was more severe in the densely populated municipalities in the industrial centres was met by increased vaccination and other precautions. Little interest was on the whole evinced in the extension of primary education, but Budge-Budge should be mentioned as an exception.

The Magistrate of Nadia remarks that on the whole municipal affairs in that district "have been quiescent save in Santipur and Nabadwip where the interests of opposing factions create an unreal atmosphere of energy which is not actually beneficial to the public. The executives of these municipalities dissipate their energies in internecine strife. Yet it is just in these municipalities that no attention whatever is paid to the most elementary duty of any public administration the provision of an adequate uncontaminated water supply." In Santipur the expenditure on water-supply amounted to Rs. 67 spent in repairs to a well. In Nabadwip out of Rs. 480 budgeted for water-supply only Rs. 29-7 was expended. The chief problem of the Krishnagar Municipality is its roads which are said to be "without any manner of doubt the worst roads in Asia". The Governor in Council is however glad to learn that the Municipal Commissioners are making a determined effort to improve them; they have taken a loan of Rs. 25,000 during the year 1925-26 for substituting stone metalling for *jhama* and for the purchase of a steam roller. The Magistrate reports that the water-works of the town, though expensive, have proved beyond cavil of the greatest benefit to the health of the town. Several municipalities, *viz.*, Santipur, Birnagar and Chakdaha present a very difficult sanitary problem. "All three are large areas comprising many deserted homesteads, abandoned tanks and tangled undergrowth—once the abode of a much larger population. Chakdaha and Santipur have given up making much show of fight against these conditions," but Birnagar is determined to stamp out malaria. There is a Palli Mandali in this place "which is determined, by jungle clearing, kerosenisation of tanks and sinking of tube wells, to rehabilitate the fortunes of this once beautiful town. The Samity is fortunate enough to have the services of several gentlemen who are experts in engineering and sanitation."

At Kusthia the Commissioners have a development scheme and have acquired land and constructed roads in advance of the growth of the town. This municipality is efficiently administered and shows commendable foresight and unanimity of opinion. The municipal administration of the Murshidabad district was efficient so far as municipal funds permitted. The health of the municipal towns was generally good. The Berhampore Municipality has made arrangements for the correct registration of births and deaths, and offers rewards to the staff for detecting omissions. The new Jessore Municipal Board has made a start. Kotechandpur continued to do excellent work while Moheshpur in the Magistrate's opinion "shows further deterioration." Good work was done by the Khulna Municipality. The town was visited by small-pox in an epidemic form, but the Municipal Commissioners took speedy measures to check the disease.

The Commissioner of the Presidency Division makes the following remarks:—

No striking advance was achieved in the administration of municipalities during the year under review. The marked difference between the standard of administration of the good and bad municipalities commented on in the previous reports continues, and since the transfer of the Cossipur-Chitpore and the Garden Reach Municipalities which were two of the best managed municipalities of the Division, the number of inefficient municipalities in the district of 24-Parganas now considerably exceeds the number of well-managed ones. As example of the former type may be cited the municipalities of Panihati, Rajpur, Tollygunge and Baraset. The realisation of

tax in these municipalities is very unsatisfactory while the cost of administration is heavy though the actual work done is very small. It is much to be desired that these Commissioners should realise their civic responsibilities and adopt coercive measures for the realisation of taxes without too much fear of unpopularity, and take more real interest in the affairs of the municipalities and adopt business-like methods in replying to correspondence and attending to audit objections. Nabadwip and Santipur are examples of municipalities which are rent by dissension and party feeling which prevent useful work being done in them. Krishnagar stands out as the municipality with probably the worst roads in the province. This municipality was handicapped on account of the water-works not being completed in time with the result that a large portion of the general funds had to be utilised for repayment of the loans taken for the water-works.

Dacca Division.—Mr. Drummond, Magistrate of Dacca, makes the following remarks as to the working of the municipalities in his district :—

In spite of good intentions the Commissioners of the Dacca Municipality were seriously hampered during the year by continued failure to realise the taxes due to a campaign of propaganda and injunctions engineered by an individual who received support and sympathy in his vendetta from a large section of the public instead of the disapproval which it merited. It is evident that not many of the rate-payers realise that the Municipal Board is their own creation, an extension of their own personality and that to attack it is suicidal. The Chairman, Mr. K. Nazimuddin, showed great courage, forbearance, and tact in dealing with a very unpleasant and difficult situation. He was ably backed by the Vice-Chairman. The most notable achievement of the Commissioners was the opening of three primary schools as an earnest of their desire to equip the whole city with free schools of this type. Certain extensions to the lighting and pipe-water system were also carried out.

The Narainganj Municipality is described in the *District Gazetteer* published in 1912, as probably the most efficient in Bengal. Though there are no very serious blemishes on the municipal administration it can no longer claim this proud distinction.

As regards the working of the municipalities in the district of Mymensingh Mr. Twynam observes as follows :—

The financial condition of the municipalities within this district indicates a remarkable absence of business ability. This characteristic appears to be due partly to inexperience and partly to the fact that Municipal Commissioners are usually busy men who have their own livelihood to earn. It is accentuated by the absence from most municipal boards of any technical knowledge or experience and encouraged by a spurious sentimentality which regards enforcement of the provisions of sections 121-124 of the Municipal Act as a great hardship. It would seem that most of the above difficulties would disappear if municipalities had paid secretaries thoroughly acquainted with their work and of sufficient standing both to influence opinion and control the clerical staff.

The Governor in Council commends the above suggestion to all the municipalities in the Province.

As regards the municipalities in Bakarganj the Magistrate observes that on the whole they are doing their best with the resources at their disposal. The Barisal Municipality is taking special steps to deal with its heavy arrear demand.

Chittagong Division.—The Commissioner of the Division gives credit to the Municipal Commissioners of Chittagong for their various activities in spite of their financial difficulties. The special feature of the Comilla Municipality was the completion of its water-works. Noakhali is still under erosion on the northern side while on the east and south sides a large reformation is going on. The financial condition of the municipality is bad and there is no immediate hope of improvement. Other municipalities in the division are doing good work with the limited resources at their disposal.

Rajshahi Division.—The Commissioner of the Division observes :—

The Rajshahi Municipality has suffered much from party faction amongst the Commissioners. The water-supply project of the municipality is yet very incomplete and it is doubtful if funds will be found for financing it. The party faction in the Dinajpur Municipality was so strong that 5 Commissioners immediately resigned after election because their party could not get a majority. The municipality is in need of a loan to finance the project for construction of the Dinbazar bridge over the Karolla and the application has been recommended to Government. In Rangpur Municipality it is too early yet to say how far the education cess has furthered the cause of primary education. The finances of the Pabna Municipality show little improvement and it is doubtful if the municipality will be able to pay its share of the water-works scheme. In Bogra there have been complaints for the municipality's negligence of roads in the town. The work of the Darjeeling Municipality has always been up to the mark.

17. **Conclusion.**—The year under review has not seen any very marked improvement in the general level of municipal administration which continues to

be hampered by lack of funds. The incidence of taxation is still very low in many municipalities as the result of aversion on the part of Municipal Commissioners to increased taxation. Another regrettable feature of the administration was the marked disinclination of the municipal executive to adopt coercive measures for the timely realization of taxes of which more than Rs. 13 lakhs were allowed to fall in arrears. In certain municipalities again the administration was hampered by party spirit and faction. There are, however, in some towns signs of an awakening. Increased attention was paid by several municipalities to the improvement of public health and the spread of primary education.

The Congress or Swaraj party was successful in obtaining seats in some municipal boards. It cannot be said that there has in consequence of this been any marked change in the methods or spirit of administration in those municipalities and both Swaraj and non-Swaraj members appear to have co-operated in carrying on the administration.

The Bengal Municipal Bill which aimed at enlarging the scope of municipal work by the relaxation of internal Government control and by enabling municipalities to enhance their revenues, was unfortunately thrown out by the Bengal Legislative Council on the first reading in December 1925.

The names of the following Chairmen, Vice-Chairmen, and Municipal Commissioners have been specifically brought to the notice of Government by the Commissioners of Divisions on account of the good work done by them and the Governor in Council desires to express his appreciation of the public spirit shown by these gentlemen and of the valuable services they have rendered:—

28. The court shall then enter in the Register of Suits the name and address of the plaintiff or plaintiffs, the name and address of the defendant or defendants, the nature of the claim, the date and place where the cause of action arose, and the relief claimed. The court shall make a note of any document produced in the column of remarks.

29. The court shall then, after such examination of the petitioner as it considers necessary, proceed either under section 78 or under section 80 of the Bengal Village Self-Government Act, 1919.

30. If any defendant does not reside within the jurisdiction of the court, the summons may be served by registered acknowledgment post, the postage for which shall be paid by the plaintiff or it may be sent for service to the president of the union board in which the defendant resides.

31. If the defendant appears and applies for time either to proceed under section 81 of the Bengal Village Self-Government Act, 1919, or to produce evidence, the court shall fix a date for the hearing, but unless the defendant declares his intention to move for a transfer under section 81, he shall be called on to answer the petition at once, either orally or in writing.

32. When both sides are ready with their witnesses the court shall proceed to hear the case.

33. The petitioner shall have the right to begin, unless the defendant admits the facts alleged by the plaintiff and contends that, either in point of law or on some additional facts alleged by the defendant, the petitioner is not entitled to any part of the relief which he seeks, in which case the defendant shall have the right to begin.

34. The party having the right to begin shall state his case and produce his evidence in support of the issue, which he is bound to prove.

The other party shall then state his case and produce his evidence (if any) and may then address the court generally on the whole case.

On abandonment of the whole or part of a claim, the plaintiff shall pay the fee under section 90 of the Bengal Village Self-Government Act, 1919, in respect of the amount of the claim abandoned.

If a suit be adjusted wholly or in part by any lawful agreement or compromise, such agreement or compromise shall be recorded, and the court shall pass a decree in accordance therewith.

37. Decrees or orders of the court shall be entered in the Register of Suits and signed by all members of the court hearing the case.

38. All money payable under a decree shall be paid as follows, namely :—

(a) into the court whose duty it is to execute the decree, or

(b) out of court to the decree-holder, or

(c) otherwise as the court which made the decree directs.

Where any payment is made under clause (a), notice in writing or otherwise of such payment shall be given to the decree-holder.

39. Where any money payable under any decree is paid out of court or the decree is otherwise adjusted in whole or in part to the satisfaction of the decree-holder, the decree-holder shall certify such payment or adjustment to the court whose duty it is to execute the decree, and the court shall record the same accordingly after realizing the fees from him.

The judgment-debtor also may inform the court of such payment for adjustment within three months of the payment and apply to the court to issue a notice in writing or otherwise to the decree-holder to show cause, on a day to be fixed by the court, why such payment or adjustment should not be recorded as certified, and if after such notice the decree-holder fails to show cause why the payment or adjustment should not be recorded as certified, the court shall record the same accordingly after realizing the fees from the judgment-debtor.

A payment or adjustment which has not been certified or recorded as aforesaid shall not be recognized by any court executing the decree.

40. At any time within three years of the signing of the decree, the successful party may apply to the court for execution of the decree.

The court will then issue an order on the president of the union board, who will proceed to realize the amount as if it were an arrear of rate imposed under section 37 of the Bengal Village Self-Government Act, 1919.

41. On realization of the amount of the decree or any part thereof, the president of the union board shall credit to the union fund such proportion of the amount as is due for the fee and hold the balance of the amount in deposit to the credit of the decree-holder.

42. After the expiry of one month from the date of a decree dismissing a suit, or after the expiry of three months of any suit decreed, if the decree-holder takes no steps to recover his decree, the court shall proceed under section 99 of the Bengal Village Self-Government Act, 1919, to realize any fees due to it.

43. The certificate to be granted under section 91 of the Bengal Village Self-Government Act of 1919 shall be in the form given in the schedule.

44. On execution of such transferred decree, the munsif shall certify execution to the court.

Such suits shall be tried and such decrees shall be executed as suits instituted in, and decrees passed by, such civil court.

48. The defendant may set off any amount legally due to him by the plaintiff for which he could bring a suit in a union court. If such set-off is established, the decree shall be for any sum which finally appears to be due to either party.

49. The following registers shall be kept:—
